DECLARATIONS OF PECUNIARY INTEREST AND THE GENERAL NATURE THEREOF

PRESENTATIONS

1. Report dated June 27, 2012 from the Chief of Emergency Services regarding Community Public Access Defibrillator (PAD) Program – Update. **5 - 7**
(ELECTRONIC PRESENTATION) (FOR INFORMATION ONLY)
 - Aaron Archibald, Deputy Chief of Emergency Medical Services Operations

(An information update on the City of Greater Sudbury's Public Access Defibrillator (PAD) Program.)

CONSENT AGENDA

(For the purpose of convenience and for expediting meetings, matters of business of repetitive or routine nature are included in the Consent Agenda, and all such matters of business contained in the Consent Agenda are voted on collectively.

A particular matter of business may be singled out from the Consent Agenda for debate or for a separate vote upon the request of any Councillor. In the case of a separate vote, the excluded matter of business is severed from the Consent Agenda, and only the remaining matters of business contained in the Consent Agenda are voted on collectively.

Each and every matter of business contained in the Consent Agenda is recorded separately in the minutes of the meeting.)

CORRESPONDENCE FOR INFORMATION ONLY

- C-1. Report dated June 21, 2012 from the General Manager of Community Development regarding Review of the Housing Services Act. **8 - 13**
(FOR INFORMATION ONLY)

(The report provides information on the new legislation highlighting the major requirements and impacts on the CGS policies and services.)

REGULAR AGENDA

MANAGERS' REPORTS

- R-1. Report dated June 26, 2012 from the General Manager of Community Development regarding Outdoor Rink and Playfields - Facilities and Statistics. **14 - 48**
(FOR INFORMATION ONLY)

(During the 2011 Budget deliberations, Council requested staff to prepare a report on outdoor rinks and playfield usage. The report includes a summary of outdoor rinks operating during the 2011-12 winter season along with a 2011 playfield facility inventory/usage.)

- R-2. Report dated June 26, 2012 from the General Manager of Community Development regarding Sudbury Community Arena Main Rink Lighting Replacement. **49 - 50**
(RECOMMENDATION PREPARED)

(The Electrical Safety Authority has requested that the existing main rink lighting at the Sudbury Community Arena be replaced.)

- R-3. Report dated June 25, 2012 from the General Manager of Community Development regarding Seniors' Perception Study: 20 Years Later. **51 - 52**
(RECOMMENDATION PREPARED)

(The Seniors' Advisory Panel would like to conduct a 20 year follow-up from a 1991 Seniors' Perception Study.)

ADDENDUM

CIVIC PETITIONS

QUESTION PERIOD AND ANNOUNCEMENTS

NOTICES OF MOTION

ADJOURNMENT

BRIGITTE SOBUSH, DEPUTY CITY CLERK

FRANCA BORTOLUSSI, COUNCIL ASSISTANT

Community Public Access Defibrillator (PAD) Program – Update

Presented To: Community Services
Committee

Presented: Monday, Jul 09, 2012

Report Date: Wednesday, Jun 27, 2012

Type: Presentations

Recommendation

For information only.

Background

In Canada, 35,000–40,000 people die of sudden cardiac arrest (SCA) each year. Most of these deaths occur out-of-hospital. While Cardiopulmonary Resuscitation (CPR) can maintain circulation for a very short period of time after a sudden cardiac arrest occurs, early defibrillation is what the patient requires. When a heart stops beating, for whatever reason, early intervention can often get it going again and save a life.

The “Chain of Survival”, consists of essential elements advocated by the Heart and Stroke Foundation, outlining the four key “links” that have to be connected in order for a victim of cardiac arrest to have the best chance for survival.

The key links in the chain include; Early Access (to Emergency Medical Services by calling 9-1-1), early CPR, (cardio pulmonary resuscitation), early Defibrillation (use of a defibrillator by Public Access Defibrillator, Paramedics, or Firefighters), and early Advanced Care (by medically trained Paramedics or hospital staff). CPR keeps blood circulating through vital body tissues keeping organs alive, but it takes defibrillation with an Automated External Defibrillator (AED) to fully resuscitate someone in cardiac arrest. Most sudden cardiac arrest victims are in ventricular fibrillation, an electrical malfunction of the heart that causes the heart to twitch irregularly instead of a normal steady beating action.

According to the Heart and Stroke Foundation, the odds of survival for an out-of-hospital cardiac arrest are approximately 5%. With each passing minute, the probability of survival declines by 7–10%. In Ontario alone, approximately 6,500 cardiac arrests occur annually

outside of the hospital.

However, early defibrillation with an Automated External Defibrillator (AED) can improve cardiac arrest survival rates significantly. An AED is a portable electronic device that automatically diagnoses the potentially life threatening cardiac rhythms of ventricular fibrillation and ventricular tachycardia in a patient, and is able to treat them by application of electrical shock which can stop the life threatening rhythm, allowing the heart to re-establish an effective heartbeat. AEDs are designed to be simple to use for the layman, and are becoming widely available through the proliferation of Public Access Defibrillator Programs across Ontario.

In Ontario, the *Chase McEachern Act* protects individuals from liability for damages that may occur in relation to their use of an AED to save someone's life at the immediate scene of an emergency. It also protects the owners and occupiers of the buildings where AEDs are installed from liability that may occur in relation to the use of the AED provided that the owner or occupier of the building made the AED available for use in good faith.

PAD Funding

In 2007, the Heart and Stroke Foundation partnered with host communities through their local EMS providers to provide funding toward the purchase and installation of Public Access Defibrillators, the funding also included one-time training costs for a maximum of ten persons for each AED deployed. The Heart and Stroke Foundation has since offered an additional six rounds of funding. Sudbury has been successful in securing funding in each of these rounds.

Heart and Stroke Foundation funding only covers the initial purchase of the AED, wall cabinet and training for each site. However, there are ongoing costs required to maintain the program which include: ongoing CPR/AED training, replacement defibrillator pads, replacement batteries and airway equipment. The AED manufacturer does not specify a service life for their AED, but we must consider that they will be required to be replaced sometime in the future.

In order to address financial risk, legal agreements are being developed that will transfer all future ongoing costs, including training, and AED replacement to the host operating department or organization. The draft agreement template is currently with legal for review.

Total funding received by EMS (2007–2012) from the Heart and Stroke Foundation for the purchase of AED units, wall cabinets, and training costs to support the City's Public Access Defibrillator Program, will be approximately \$265,000.

Locations

Currently, EMS is deploying 40 more units, a result of funding from the last round. Once deployed, the number of PADs located across the City will total 109. This total includes 60 PAD units located in 57 City facilities, with another 49 PAD units located in non-city owned facilities.

Each PAD location consists of a wall mounted cabinet containing a single AED, spare defibrillator pads, bag-valve resuscitator, pocket mask, and inspections sheet and Emergency Response Plan, costing approximately \$3500 to bring each site on-line. PAD

locations include City pools, leisure centers, libraries, arenas, beaches, ski hills, Citizen Service Centers, office complexes, and the airport. While non-city locations include all Secondary Schools, Community Halls, Elementary Schools (in progress), Anderson Farm, and Science North.

Training and Maintenance

Training for the PAD Program is delivered by one of our Paramedics who is a certified Heart and Stroke Instructor. Training for each participant consists of five hours of classroom and practical training on CPR and AED operation. Since 2008, EMS has provided this CPR/AED training to over 600 persons, 400 of which are City facility staff. The EMS Training Section has also developed a short AED refresher video that will be posted on the City's eLinks web-page for review by operating departments; while outside organizations will be provided a free copy of the video.

City PAD units are inspected weekly by facility staff. Completed inspection reports are submitted to EMS on a monthly basis. Any identified issues are addressed by EMS Logistics staff.

Conclusion

Since implementation in 2008, no Public AEDs have been used in the City of Greater Sudbury. Heart and Stroke Foundation statistics indicate that in Ontario, Public Access Defibrillators have saved **37 lives** since 2006.

CPR performed by bystanders, in addition to early defibrillation, is essential if sudden cardiac arrest survival rates are to improve. Given the potential for the PAD Program to save lives, EMS will continue its support within the community.

The City of Greater Sudbury's PAD Program is working to strengthen the "Chain of Survival" in the community. Together with the EMS response system, trained citizens can improve cardiac arrest survival.

Review of the Housing Services Act

Presented To: Community Services Committee

Presented: Monday, Jul 09, 2012

Report Date Thursday, Jun 21, 2012

Type: Correspondence for Information Only

Recommendation

FOR INFORMATION ONLY

Background

In November 2010, the Province introduced its Long Term Affordable Housing Strategy (LTAHS) with a view of setting out the Province's vision for housing in Ontario. A main focus of the Strategy is to transform the way housing and homelessness services are delivered in order to achieve better outcomes for people. In addition, the LTAHS reaffirmed the Province's devolution of housing and homelessness programs to the municipal sector.

Key components of the Strategy include:

1. a commitment to consolidate the funding and administration of provincial housing and homelessness programs
2. a requirement for the creation of local 10 year housing and homelessness plans
3. revising or replacing the current rent-geared-to-income system with a streamlined income tax based system
4. a commitment to a series of performance measures, including the Ontario Housing Measure and the Rental Affordability Indicator which will be reported on by the Province as well as social housing tenant satisfaction surveys and other local metrics to be reported on by municipalities in order to track progress in meeting local needs

These are seen as integral tools in providing municipalities with greater flexibility to address local needs.

As a means of implementing the Strategy, the Province introduced new legislation to replace the Social Housing Reform Act, 2000 (SHRA). It was felt that legislative changes were needed to the SHRA in order to address complexities associated with the funding and administration of social housing, streamline administrative requirements and ensure appropriate accountability measures were in place. The Province also amended the Planning Act in order to allow secondary suites in traditional single unit dwelling neighborhoods.

In August 2011, the Province also issued the Ontario Housing Policy Statement (OHPS). The Statement is intended to provide additional policy context and direction to municipalities and Service Managers to support the development of locally developed housing and homelessness plans.

The OHPS identifies seven (7) important areas of provincial interest which municipalities must have regard in developing their local plans. These will be described later in this report.

Current Status

A key to the implementation of the LTAHS and the OHPS was new legislation. To that end, the Social Housing Reform Act 2000 (SHRA) was repealed effective January 1, 2012, and replaced with the Housing Services Act, 2011 (HSA) and related regulations. The HSA was designed to clarify the roles and responsibilities of the Province and municipalities with respect to housing and homelessness planning and programs. In general, the purpose of the HSA is:

- to provide for community based planning and delivery of housing and homelessness services with general provincial oversight and policy direction: and
- to provide flexibility for municipalities and housing providers while retaining provincial requirements with respect to housing programs that predate the Act and to housing projects that are subject to these programs.

Key features of the Housing Services Act, 2011, are highlighted below.

Housing Programs

The HSA completes the devolution process begun under the previous legislation. It maintains the existing funding and administrative responsibilities conveyed by the Province under the SHRA. This includes on-going reporting to the Province and adhering to provincial program requirements and standards.

With respect to the CGS relationship with the housing providers, the HSA retains the key reporting and enforcement provisions while providing both municipalities and housing providers with enhanced tools to better deal with problem projects and issues. For example, the Province has delegated certain decision powers to municipalities with respect to establishing local rules and standards which providers must follow.

Municipalities still require Ministerial consent for the sale and transfer of social housing projects. The HSA also explicitly provides that municipalities are responsible for any housing provider related mortgage default costs.

Under the HSA, housing providers must now create local training plans for staff and volunteers along with succession plans for their board members.

There is also a requirement for an enhance review process for applicants and tenants wishing a second review of decisions affecting their eligibility and rent calculations. The new rules regarding the review process are designed to ensure that those making the final decision are not those individuals who participated in the initial decision making process.

Staff training on the various aspects of the HSA is underway. Staff are also working with local housing providers to ensure that they are aware of the new legislative requirements. Further, staff is working closely with local housing providers and stakeholders on the review of local housing rules with a view of bringing these in compliance with the new HSA standards.

Rent-Geared-To-Income (RGI) Reform

The Province is committed to RGI reform. Currently, social housing tenant rents are based on 30% of gross income for those with employment or pension related incomes. Tenants in receipt of social

assistance (Ontario Works) or the Ontario Disability Support Program (ODSP) have their rents based on a prescribed provincial rent scale which sets their rents at less than the maximum shelter allowance permitted under those programs. For all tenants, rents are adjusted as incomes change and for utilities.

The Province hopes to introduce a new income tax based system that is less complex, easier for tenants to understand and easier for municipalities to administer. They are currently working on several models and will give municipalities an opportunity to provide comment on the proposed new system prior to its implementation.

At this time, it does not appear that the OW/ODSP rent scales or the utility scales will be adjusted. Further, it is unclear what impact the new system will have on program administration and tenant rents. Increases could impact municipal costs and rent subsidies. Impact assessments will be conducted once details of the proposed new system are available.

Staff training for both municipal and non-profit staff will be required prior to making the new system operational. The creation and delivery of information materials for applicants and tenants will also be required.

The Province has not indicated when details of the new system will be available. Municipalities are hopeful that the details of the new system will be known in time to ensure that any projected impacts can be appropriately reflected in the budget cycle.

10 Year Housing & Homelessness Plans

The HSA requires that each municipality/service manager develop a 10 year Housing and Homelessness Plan. Details on the Plan requirements have been provided through provincial regulations and the Ontario Housing Policy Statement. All plans are to be in place by January 1, 2014.

In general terms, the Plans are high level strategic plans. They are to treat housing as a whole system and address housing issues across the full housing continuum from eviction prevention programs to full market housing. The Plans should link to other local planning activities like land use planning and Official Plans, homelessness planning, infrastructure planning, human services planning and economic development strategies.

The Plans are not intended to be about existing programs or specific program outcomes. The intent is to provide a more integrated approach to local service provision and planning which will result in better overall people centered results.

The Plan must include four principle components:

1. An assessment of current and future local housing needs.
2. Objectives and targets to address identified housing needs.
3. A description of activities proposed to meet the objectives and targets.
4. A description of how progress will be measured.

Municipalities are required to ensure that their Plans address all matters defined as Provincial Interests in the HSA. The Plan must reflect a system of housing and homelessness services that:

- is focused on achieving positive outcomes for individuals and families
- addresses the housing needs of individuals and families in order to help address other challenges they face
- has a role for non-profit corporations and non-profit housing cooperatives
- has a role for the private market in meeting housing needs
- provides for partnerships among governments and others in the community
- treats individuals and families with respect and dignity

- is co-ordinated with other community services
- is relevant to local circumstances
- allows for a range of housing options to meet a broad range of needs
- ensures appropriate accountability for public funding
- supports economic prosperity
- is delivered in a manner that promotes environmental sustainability and energy conservation

The Plan must also address the policy directions identified in the Ontario Housing Policy Statement. As such, the Plan must reflect:

1. measurable, improved outcomes for individuals and families achieved through increased access to locally relevant programs, services and supports that are coordinated and address identified needs
2. strategies to prevent and to reduce homelessness and assist people who are homeless to find and keep housing and be able to demonstrate that these strategies have a measurable impact on at-risk and homeless individuals and families
3. a community-based approach to social housing which maintains and supports non-profit housing corporations and non-profit housing co-operatives, so that affordable options that exist today will continue to be available in the future
4. a strategy to generate municipal support for an active and vital private ownership and rental market, including second units and garden suites, as a necessary part of the housing continuum including affordable home ownership, where appropriate
5. improved integration of housing and homelessness plans and services with other human services planning and delivery which will result in better outcomes for the people accessing services
6. community integration and diversity by meeting the needs of people with disabilities, victims of domestic violence, seniors and those in other locally defined groups
7. a commitment to improve the energy efficiency of existing and future publicly funded housing stock. This includes support for energy conservation and energy efficiency through operating programs, tenant engagement, housing located near transportation choices, and innovative investment decisions such as the installation of renewable energy and low carbon technologies

There is no new provincial funding available to support new local programs or initiatives. Provincial staff have repeatedly clarified that “addressing” a local housing need does not mean meeting that need in full. The primary objective is to ensure that local Plans are developed in an integrated manner, with consideration given to the housing and homelessness system as a whole, resulting in locally appropriate allocation of the available resources.

CGS staff has begun work on bringing the various aspects of the Plan together. A multi-departmental team is in place reflecting staff from Housing Services, Social Services and Planning Services. Staff from other areas may be added as needed. Consultations with various stakeholders will take place as appropriate.

The timing of the work on the new Plan coincides with the update of the CGS Official Plan and the CGS Affordable Housing Strategy. This provides an opportunity to collaborate on data collection and policy development. Staff will work together with local stakeholders to ensure that both the Official Plan policies and those of the Housing and Homelessness Plan are consistent and mutually supportive.

Further, recent work by CGS Homelessness staff and community groups on the delivery of homelessness services can be added to the Plan ensuring that policies related to homelessness reflect community priorities.

The final Council approved Plan must be in place by January 1, 2014. However prior to Council approving the Plan, the proposed plan must be submitted to the Minister for comment. The Province has committed to providing comments within 90 days. The final Plan approved by Council must reflect consideration of any

provincial comments. The draft Plan will be brought before the Community Services Committee prior to proceeding to Council for final approval.

Homelessness Funding Consolidation

The Province will consolidate funding and administrative responsibility for a range of housing and homelessness programs, with Phase One of consolidation taking effect January 1, 2013.

Currently, there are more than twenty housing and homelessness-related programs with policy and program responsibilities split across three ministries. These programs have various legislative and policy frameworks and funding relationships. The CGS currently has a funding or administrative role in most of these programs.

The Province committed to consolidating the following homelessness programs as Phase One of consolidation:

- Consolidated Homelessness Prevention Program: which assists those experiencing or at risk of homelessness to find and maintain stable housing and to access a system of supports.
- Emergency Hostel Services: which provides board, lodging and personal needs to homeless persons on a short term basis.
- Domiciliary Hostel Program: which provides permanent housing with limited supports for vulnerable adults who require some supervision and support with daily living activities.
- Provincial Rent Bank: which provides outstanding rent directly to landlords on behalf of tenants who are in short-term arrears and facing eviction.
- Emergency Energy Fund: which assists low-income households facing energy-related emergencies by providing emergency assistance to deal with payment of utilities, security deposits and reconnection fees.

The object of the consolidation is to enable municipalities to use provincial funding in a more flexible manner, reflective of local homelessness related needs and priorities. The Province is working with all stakeholders to establish the consolidation framework and to support a smooth transition to the consolidated program. Funding for the five programs will be consolidated effective January 2013. The actual amount funding the CGS will receive post consolidation has yet to be announced. It is hoped that the program details and funding allocation will be made in time to coincide with the municipal budget process.

As well, the most recent Provincial budget announced that as part of the first phase of program consolidation under the Provincial Long Term Affordable Housing Strategy, the Community Start-Up and Maintenance Benefit (CSUB) is being removed from the social assistance program. A portion of the funding formerly allocated to CSUB is to be included in the new consolidated homelessness program funding envelope to be administered by municipalities.

Staff are working with the local homelessness network, service providers and community stakeholders regarding the upcoming changes. Once all details and funding allocations are known, a plan will be put in place to ensure that households experiencing housing instability continue to receive services as required.

FINANCIAL IMPLICATIONS

At this point in time, the financial implications of the Housing Services Act and consolidation of housing and homelessness program funding are unknown. No new senior level housing and homelessness programs have been announced which would help address waiting list pressures or other local housing needs.

There may actually be future cost increases related to:

- Changes in the rent-geared-to-income calculation rules.

- Program cost increases not adequately captured in the block funding provided by the Province for consolidated programs.

Once program details and impacts are known, these will be reflected through the appropriate budget processes.

Next Steps

Staff, in collaboration with local housing providers and stakeholders, will begin implementing the various aspects of the Housing Services Act. In particular, staff will work with community partners on the development of a 10 Year Housing and Homelessness Plan. The Plan will be brought to the Community Services Committee for review and recommendation to Council.

Staff will also continue to participate in the various provincial program consultations and focus groups with a view of maximizing program benefits while minimizing program costs.

Doug Nadorozny
Chief Administrative Officer
Digitally Signed Jun 28, 12

Background

As part of the 2011 Budget process, Council requested staff to submit a report on the use of outdoor rinks during the 2011-2012 season along with background information on playfield users, statistics and number of playfield facilities.

The Parks, Open Space and Leisure Master Plan

To help frame the issue and to provide a historical perspective the Parks, Open Space and Leisure Master Plan (2004) was reviewed with respect to outdoor rinks and playfields. The following statistics and recommended action were included in the Plan.

Outdoor Rinks

Outdoor Hockey Rink Distribution (Parks, Open Space and Leisure Master Plan, 2004)

Community / Service Area	Outdoor Rink	Population per Rink	0-19 Population per Rink
Azilda, Chelmsford	1	15,046	4,100
Coniston, Wahnapiatae, New Townships	2	2,576	655
Dowling, Levack, Onaping	2	2,444	620
Garson, Falconbridge, Skead, Bowland's Bay	3	2,952	945
Lively, Naughton, Whitefish, Worthington	9	1,125	292
Sudbury - Downtown	1	6,856	1,230
Sudbury - Flour Mill	4	3,501	771
Sudbury - Minnow Lake	3	3,303	872
Sudbury - New Sudbury	4	6,046	1,435
Sudbury - South End	5	3,913	911
Sudbury - West End & Copper Cliff	3	3,593	752
Val Therese, Hanmer, Val Caron, Blezard Valley, McCrea Heights, Capreol	8	3,233	858
City of Greater Sudbury	45	3,449	839

Actions re: outdoor rinks from the Parks, Open Space and Leisure Master Plan

- Similar to the approach taken in some of its Towns prior to amalgamation, it is recommended that the City only provide supervision at select locations and that local organizations be responsible for supervising the balance of the rinks. The City should continue to supply all volunteer associations with the necessary equipment and should provide additional funds to groups providing supervisory duties. The level of funding should, however, be less than what it would cost the City to provide direct supervision, otherwise the City should not adopt this approach.

Soccer/Playfields

Soccer Field Distribution (Parks, Open Space and Leisure Master Plan, 2004)

Community / Service Area	Lit Soccer (Lit=2)	Unlit City Soccer		Unlit School Soccer		Total Fields		Population per Field (all)
	Full	Full	Mini	Full	Mini	Full	Mini	
Azilda, Chelmsford	0	1	0	1	4	2	4	2,508
Coniston, Wahnapiatae, New Townships	0	0	0	0	1	0	1	5,152
Dowling, Levack, Onaping	0	0	1	0	2	0	3	1,629
Garson, Falconbridge, Skead, Bowland's Bay	0	0	4	0	2	0	6	1,476
Lively, Naughton, Whitefish, Worthington	0	3	1	1	1	4	2	1,687
Sudbury - Downtown	1 = 2	2	1	0	0	4	1	1,371
Sudbury - Flour Mill	0	0	0	4	3	4	3	2,001
Sudbury - Minnow Lake	0	0	0	1	0	1	0	9,910
Sudbury - New Sudbury	0	0	5	4	5	4	10	1,727
Sudbury - South End	0	0	2	2	5	2	7	2,174
Sudbury - West End & Copper Cliff	1 = 2	0	0	0	0	2	0	5,389
Val Therese, Hanmer, Val Caron, Blezard Valley, McCrea Heights, Capreol	2 = 4	2	1	2	2	8	3	2,351
City of Greater Sudbury	4 = 8	8	15	15	25	31	40	2,186

Notes: Each lit field is considered to be equivalent to two unlit fields due to its extended hours of availability.
Some full size fields are divided into multiple mini fields for minor league play (e.g., Howard Armstrong fields).
Cambrian College has a full size field lit field which is frequently used for competitive community league play.
Laurentian University has 2 full size unlit fields that are occasionally used for high school and league play.

The Plan indicated that, by applying a provision standard of 1 field (both full-size and mini) per 65 active participants, there was a current need for 92 fields. With a thet supply of 71 soccer fields (in 2004), there was a resulting shortage of 21 fields.

Actions re: Playfields from the Parks, Open Space and Leisure Master Plan

- The City should work with the Board of Education to properly convert the under-utilized ball diamond at Chelmsford High School to a soccer field (equivalent to 2 mini fields). These fields have been included within the current inventory as they are being used for soccer at this time.
- Develop three new mini fields at the Lionel E. Lalonde Centre in Azilda.
- Develop a soccer complex with three or more full size lit fields at either Countryside Arena or the proposed multi-use recreation complex in the New Sudbury/Flour Mill area. Should the twin pad site in the New Sudbury/Flour Mill area be selected for soccer field development, consideration should be given to developing one pitch as an artificial turf field
- Pending the outcome of the Adanac Park Master Plan and the reuse of the Barrydowne Arena as an indoor turf venue, an outdoor soccer field complex should be developed within the Adanac/Rotary Park area.

Outdoor Rinks and Playfields

- Install lights on the Lily Creek Sports Complex soccer fields and investigate the possibility of converting the ball diamond and tennis courts at this site into a soccer pitch.
- Continue to upgrade existing soccer fields to meet local needs, including the identification of additional fields suitable for lighting installation. Additional funds may be required to maintain and upgrade fields to the appropriate standards. The City should work with local Boards of Education to improve school fields in areas without municipal fields, subject to a community use agreement regarding the improved fields.
- Identify surplus ball diamonds (on City or school lands) and redevelop them as soccer fields, where feasible and appropriate.
- The City should collect accurate and complete data on soccer participation on a yearly basis, similar to how it obtains information for hockey and figure skating through its ice allocation process.

Ball Diamonds

Ball Diamond Distribution (Parks, Open Space and Leisure Master Plan 2004)

Community / Service Area	Lit Baseball	Unlit Baseball	Lit Softball	Unlit Softball	Practice Baseball/ Softball	Total Diamonds (Lit=2)	Population per Diamond
Azilda, Chelmsford	0	0	2	3	2	9	1,672
Coniston, Wahnapiatae, New Townships	0	0	1	1	0	3	1,717
Dowling, Levack, Onaping	0	1	0	2	1	4	1,221
Garson, Falconbridge, Skead, Bowland's Bay	0	0	2	2	4	10	886
Lively, Naughton, Whitefish, Worthington	0	1	2	1	1	7	1,446
Sudbury - Downtown	0	0	1	0	0	2	3,428
Sudbury - Flour Mill	1	0	2	4	2	12	1,167
Sudbury - Minnow Lake	0	0	2	4	2	10	991
Sudbury - New Sudbury	0	0	1	2	3	7	3,455
Sudbury - South End	0	1	1	1	2	6	3,201
Sudbury - West End & Copper Cliff	0	0	1	0	0	2	5,389
Val Therese, Hanmer, Val Caron, Blezard Valley, McCrea Heights, Capreol	2	0	4	3	5	20	1,293
City of Greater Sudbury	3	3	19	23	22	92	1,687

The inventory data indicated that there were 70 diamonds in the City if only the better quality diamonds were counted and lit fields are considered to be equivalent to two unlit fields. With a demand for 71 diamonds and a supply of 70 diamonds, there was an identified need for one additional field.

Actions re: Ball Diamonds from the Parks, Open Space and Leisure Master Plan

- A third lit softball diamond should be developed at the Centennial Arena in Hanmer, contingent upon receiving an acceptable level of financial assistance from local user groups. Once this field is constructed, no new diamonds will be required in the City.
- Lower quality “practice” or “scrub” diamonds should be evaluated and redeveloped for other uses where appropriate (e.g., soccer fields).
- In cooperation with local organizations, the City should undertake an assessment of ball diamonds in order to identify necessary repairs and upgrades to the diamonds. Upgrades should be made to the select diamonds with the assistance of local organizations. If lights are added to any diamond, one existing unlit diamond should be eliminated from the inventory. Additional funds may be required to maintain and upgrade diamonds to the appropriate standards.

Current Status

Many of the actions identified in the 2004 Parks, Open Space and Leisure Master Plan have been acted upon. Some growth in supply of playfields has occurred, and new outdoor rinks have been added to the inventory. The James Jerome Sports Complex has added an artificial turf field to the inventory of playfields and usage analysis is being completed to identify future supply/demand issues.

The following provides a summary of the current status of CGS outdoor rinks, playfields and ball diamonds.

Outdoor Rink Program

Prior to amalgamation, the former City of Sudbury, towns of Onaping Falls and Nickel Centre funded winter rink supervision. For the 2002-2003 season, the annual budget allocation in support of rink supervision was divided equally amongst the 47 rinks in the City of Greater Sudbury within the existing budget allocation. The former City of Sudbury winter rink supervisor provided 35 hours per week for 11 weeks. The hours were reduced from 35 hours to 25 hours (approximately 250 hours per site) in order to re-allocate the budget to support all outdoor rinks in the City. Council considered increasing rink supervision hours twice in the last 10 years.

The winter rink supervisors are a support to a number of sites operated by playground associations. The supervisors assist with ice maintenance, supervision and managing the playground buildings to accommodate users. There are a number of sites which are operated by volunteer playground associations however other sites are supported only by outdoor rink supervisors.

In the last few years, 1 outdoor rink location has closed (Twin Forks) and there has been an increase of 7 outdoor rinks for a total of 53 rinks currently operating in the City of Greater Sudbury. The following is a summary of outdoor rinks, categorized by Ward:

Outdoor Rinks and Playfields

Outdoor Rinks by Ward:

Ward 1	Ward 2	Ward 3	Ward 4	Ward 5	Ward 6
<ul style="list-style-type: none"> • Delki Dozzi • Robinson 	<ul style="list-style-type: none"> • Beaver Lake • Black Lake • Den Lou • Diorite • Kinsmen • Lively • Oja • Penage Road • VLA • Whitefish 	<ul style="list-style-type: none"> • Chelmsford • Dowling • Levack • Russell Beaudry 	<ul style="list-style-type: none"> • Antwerp • Azilda • Elm West 	<ul style="list-style-type: none"> • Carol Richard • McLean • Ryan Heights • Sunnyside • Valley East Kin 	<ul style="list-style-type: none"> • Elmview • Farmdale • Theresa • Valley Acres
Ward 7	Ward 8	Ward 9	Ward 10	Ward 11	Ward 12
<ul style="list-style-type: none"> • Capreol • Central Lane • Falconbridge • Matson • Old Skead Rd • Skead 	<ul style="list-style-type: none"> • Don Lita • Rosemarie • Westmount 	<ul style="list-style-type: none"> • Algonquin • Coniston • Long Lake • McFarlane • Wahnapiatae 	<ul style="list-style-type: none"> • Lo-Ellen • Riverdale 	<ul style="list-style-type: none"> • Carmichael • Downe • East End • Lonsdale 	<ul style="list-style-type: none"> • Cedar Park • Eyre • O'Connor • Percy • Ridgecrest

In addition to supporting the 53 Neighbourhood Outdoor Rinks, the current budget supports both Queen's Athletic Field Oval and the Ramsey Lake Skating Path. Both sites are extensively used by the general public.

Appendix A provides a summary of the weekly attendance at the majority of the outdoor rink sites for the 2011-2012 season. There are 6 outdoor rinks which no attendance statistics were available/accumulated.

Soccer/Playfields/Ball Diamonds

The City of Greater Sudbury has a number of varied users of playfields during the summer months. Youth and Adult users participate in Rugby, Football, Cricket, Soccer, Flag Football, Baseball and Frisbee. The leagues utilized City owned and school board fields in order to implement their programs.

The report on playfields provides Council with information on the following:

- 3 Year Statistics (2009-2011) – Appendix B
- Playfield Facilities (City owned and Board of Education) – Appendix C
- 2011 Tournament Listing – Appendix D

Playfield Allocation

The Leisure Services department has hosted three separate pre-season athletic field user meetings this spring; baseball, soccer, football/cricket/rugby/ultimate frisbee. Discussions pertaining to field allocation and CGS policies formed the basis of the meetings.

The Greater Sudbury Police Service attended the baseball user meeting to inform users of the increased enforcement regarding the non-licensed consumption of alcohol at CGS athletic fields. Field Users were advised that a focused effort to ensure the zero tolerance policy for this type of behaviour will be strictly enforced. Teams in contravention of this policy will be suspended. Arrangements were made to provide all league schedules to GSPS prior to the beginning of the season on May 21st, 2012. Any league representatives who were not in attendance at the meetings have received the meeting notes to ensure they are well advised of the policy. In addition, leagues were advised to further inform each individual team representative. This information was also included in written communication on subsequent communications from the CGS to all field users. Positive results are anticipated from this proactive, collaborative approach.

Playfields are also a critical part of discussions in the current renegotiation of the Joint Use agreement. Staff are currently collaborating with all four local school boards to renew/create one Joint Use agreement between all parties. A draft Joint Use agreement is scheduled to be presented to Council prior to December, 2012.

Conclusion

The City of Greater Sudbury continues to analyze and review supply, demand and capacity issues within its outdoor recreational facilities and sports fields. Since the release of the 2004 Parks, Open Space and Leisure Master Plan, the following has been accomplished:

- 2 mini fields at Lionel Lalonde Centre (equivalent to 1 full size field)
- 4 full size fields at Howard Armstrong Recreational Complex
- Renewal of 2 full size fields at James Jerome sports complex with lights / converted one natural field into artificial turf. An artificial turf field is equivalent to 4 full size grass field or 2.5 lit grass field.
- Developed 6 mini fields at Adanac / Rotary park - (equivalent to 3 full size field)
- 1 mini field at Robinson playground
- 1 mini field at Delki Dozzi playground

The above reduces the soccer field shortage by 13 full size fields leaving a balance of field shortage of 8 fields. Additionally, a feasibility study completed during the Multi-Use Recreational Complex exercise identified the shortage of fields primarily in the former city of Sudbury.

Outdoor Rinks and Playfields

As defined in the Leisure Services Strategic Plan, with the initiation of the Official Plan review, it is anticipated that an update can also be provided for the Parks, Open Space and Leisure Master Plan. This update will provide the framework to better inform the decisions and actions in the continued effort to renew infrastructure and meet the needs of the citizens of Greater Sudbury.

Sudbury Community Arena Main Rink Lighting Replacement

Presented To: Community Services
Committee

Presented: Monday, Jul 09, 2012

Report Date Tuesday, Jun 26, 2012

Type: Managers' Reports

Recommendation

THAT the main rink lighting at the Sudbury Community Arena be replaced as requested by the Electrical Safety Authority (E.S.A) in 2012, and;

THAT the cost for the retrofit be funded from the 2013 Community Development Capital envelope.

Finance Implications

If approved, the emergency main rink lighting replacement at the Sudbury Community Arena will be funded through the 2013 Community Development Capital envelope.

Background

In February of this year, a light fixture fell while lighting was being set up for a concert. As a result, an emergency inspection was completed and subsequent safety precautions undertaken. An engineering firm completed a structural review of the light fixtures roof connections at the arena. The engineer determined that the structural aspects of the lighting system were sound however the failure was due to the age of the light connections.

The consultant concluded that the device supporting the fixture has reached the end of its life and is failing when staff raise or lower the light fixtures. The consultant recommended replacing the system to avoid any future failures. The Electrical Safety Authority conducted an inspection and confirmed that the rink lights are in very poor condition, especially the fixtures that are continually raised in order to accommodate concerts and shows. In response to direction from the Electrical Safety Authority (ESA), a certified electrician was hired to complete temporary retrofits.

The following retrofits were implemented:

- 1) Secured all lights/safety chains
- 2) Bonded fixtures to steel beams to avoid electric hazard (interim measure until lights are replaced, proper

light bonding to be included as part of the lighting replacement)

3) Installed drywall under fixtures to avoid fire hazard

4) A consultant engineer was hired to prepare the main rink lighting specification to tender the project. The ESA inspector requires that the lighting replacement be completed in 2012. The emergency lighting replacement expenditures, \$37,500, fall under the Purchasing By-law (emergency purchases section 22).

Purchasing By-law

The Purchasing By-law 2006-270 under emergency purchases section 22 states:

1. Where an Emergency exists requiring the immediate procurement of Goods, Services or Construction, a General Manager or the Agent may purchase the required Goods, Services or Construction by the most expedient and economical means, notwithstanding any other provision of this By-law. As soon as practicable thereafter, the Agent shall comply with Section 26 of this By-law.
2. For all Emergency purchases made by a General Manager, the General Manager shall as soon after the purchase as reasonably possible, notify the Agent with a written report detailing the circumstances of the Emergency. A report to Council shall be made by the General Manager or the Agent in all circumstances where the Emergency purchase exceeds \$35,000.

Required Retrofits

The cost to complete the lighting replacement at the arena is estimated between \$400,000 - \$425,000. The cost estimate includes temporary retrofits as requested by ESA, design, purchase and installation. Funding for the proposed lighting emergency retrofits and replacement are recommended to be derived from the 2013 CDD capital envelope.

The lighting retrofit can begin in July and will not interfere with the scheduled concerts and shows and the upcoming 2012 - 2013 ice season. Staff are working with the Manager of Energy Initiatives to seek an energy retrofit grant to offset some of the proposed expense.

Seniors' Perception Study: 20 Years Later

Presented To: Community Services
Committee

Presented: Monday, Jul 09, 2012

Report Date: Monday, Jun 25, 2012

Type: Managers' Reports

Recommendation

Whereas a Seniors' Perception Study was conducted by the Regional Municipality of Sudbury in 1991 to determine the degree of awareness about community services and the level of satisfaction with seniors' services in the community; and

Whereas the Seniors' Advisory Panel is in the process of organizing priorities for its term.

Therefore, be it resolved that the City of Greater Sudbury, in consultation with the Seniors' Advisory Panel, conduct a 20 year follow-up of the original survey and that additional questions be included to reflect current issues for seniors aged 55 years and older.

Finance Implications

The cost associated with the study falls within the 2012 operational budget.

Background

The Regional Municipality of Sudbury Seniors' Perception Study was prepared by the Health and Social Services Department in 1991. The results were used in the planning and delivery of services for seniors in the Region and also shared with the Task Force for Seniors Advisory Council. The purpose of the study was to gain an understanding of the current situation for seniors over 55 years of age with respect to demographics, degree of awareness about community services and the level of satisfaction with seniors' services within each of the individual municipalities. The study contributed to an understanding of the needs of seniors and the service priorities.

The 20 year follow-up study will be a combination of original survey questions pertaining to demographics, housing, communication and community participation. Additionally, new questions will be added to reflect current issues for seniors living in Greater Sudbury. The new survey, like that of the original, will be conducted through telephone interviews targeting seniors aged 55 years and older. Paper

surveys were contemplated by the Seniors' Advisory Panel; however, it was important to remove barriers such as literacy, language and lack of affiliation with a group or organization. A press release and radio and television commercials will be issued prior to the start of the telephone interviews in consideration of recent telephone scams directed at seniors. The survey will endeavour to reach an even distribution of seniors located throughout the Wards. The results of the study will provide a follow-up of the actions taken by Council and the community over the last 20 years and identify gaps in seniors' services for the community, the Seniors' Advisory Panel and funders.
