PL2021-15 Landry-Altman/Sizer: THAT the City of Greater Sudbury's delegated official be directed to amend the conditions of draft approval for a draft plan of subdivision on those lands described as PIN 02132-1366, Part of Lot 4, Concession 4, Township of McKim, File # 780-6/04007, as outlined in the report entitled "Sunrise Ridge Subdivision, Sudbury", from the General Manager of Growth and Infrastructure, presented at the Planning Committee meeting on December 14, 2020, as follows:

That the owner agrees to financially contribute to the cost associated with the overflow channel from the existing stormwater management pond on Block 39, Plan 53M-1374 to the northerly limit of Block 39, and to decommission the outlet on the westerly side of the stormwater management in the amount of \$511,236 (\$511,236/66 lots = \$7,746/lot) as per design cost estimates to be recovered on a per-lot charge on the remainder of the lots to be developed at the time of registration of future subdivision phases. Per the Junction Creek Sub-watershed Study and Stormwater Master Plan the option to outlet the pond to the north was not favorable for overall watershed flooding issues. The study recommends the purchase of homes on Mountain Street below the existing pond outlet, which has taken place, and these funds will be used toward that effort and the construction of a community park in the area of those homes."
7. By adding a new Condition #43 as follows: "43. The owner shall provide to Conservation Sudbury a soils report authored by a qualified professional attesting to the suitability of the soils for the proposed construction of Lots 82, 83, 84, 85, 86, 122 and 123 and the extension of Fieldstone Drive as shown on the Sunrise Ridge Subdivision plan prepared by D.S.  - b. The blasting consultant shall be retained by the developer and shall be independent of the contractor and any subcontractor doing blasting work. The blasting consultant shall be required to complete specified monitoring recommended in the report of vibration levels and provide a report detailing those recorded vibration levels. Copies of the recorded ground

vibration documents shall be provided to the contractor and contract administration weekly or upon request for this specific project. c. The geotechnical report will provide recommendations and specifications on the following activity as a minimum but not limited to:

THEREFORE BE IT RESOLVED that staff prepare business case for consideration as part of the 2021 Budget deliberations that reviews winter sidewalk maintenance standards and identifies approaches for enhancing the existing service level, including but not limited to addressing/considering a decrease in snow accumulation to initiate the implementation of a staff response.

OFFICE OF THE INTEGRITY COMMISSIONER

OPEN SESSION REPORT

TO: Mayor Brian Bigger and Members of Greater Sudbury City Council

FROM: Robert Swayze, Integrity Commissioner

DATE: March 8, 2021

MEETING DATE: March 23, 2021

SUBJECT: Code of Conduct Complaint against Councillor Montpellier

Recommendation:

It is recommended that the compensation paid to Councillor Gerry Montpellier be suspended for a period of 60 days commencing with the next pay period.

Background:

On January 26, 2021 I received a complaint against Councillor Gerry Montpellier (the "Respondent") from Councillor Geoff McCausland (the "Complainant") alleging that he publicly harassed a member of staff and disclosed confidential information from an in-camera meeting, both contrary to the *Code of Conduct for Members of Council and Local Boards*. (the "Code"). The Respondent wrote a letter to Prime Minister Justin Trudeau which was accessible on the internet and therefore public. He also gave an interview to CTV News on the content of the letter.

In the letter, he made the following statements:

"I should explain. These practices {bullying and harassment} have been part of our City culture for years. Finally made openly visible four years ago when the CAO of Greater Sudbury, working with the endorsement of some members of Council proceeded to publicly bully and harass a large number of private citizens and several of our highly valued Volunteer Firefighter employees, even knowingly (advised by taxpayers paid lawyers that these actions were illegal).

These actions have continued, largely hidden from the public, due to Sudbury's infamous secret meetings. They resurfaced again recently in a public written forum. Written bullying, harassing and slandering messages, directed at staff and councillors, openly viewed by the public, these recent attacks committed by the same person."

The report from his interview with CTV News referred to the following:

The letter is quoted accusing the CAO of "publicly bully and harass a large number of private citizens" . . . "bullying is zero, means nothing. . . It's acceptable in Sudbury is what it means."

"He also cites a recent encounter in which City CAO Ed Archer referred to Montpellier – in what he thought was a private message – using the words "buffoonishness and hostility."

The article also quotes him on the in-camera meeting as follows:

"There was some mention of it in the in-camera and today apparently, I can't speak about what goes in in the secret meetings but there was an address and today the known harasser and slanderer still runs the City."

The Code provides as follows:

"6 (1) No Member shall, contrary to any applicable privacy law, disclose, release by any means or in any way divulge to any person or to the public, any Confidential Information, including without limitation any personal information as that term is used in the *Municipal Freedom of Information and Protection of Privacy Act*, acquired by virtue of their office, except when required by law or authorized by Council or the Local Board to do so."

"14 (2) No Member shall maliciously, falsely, negligently, recklessly, or otherwise improperly, injure the professional or ethical reputation, or the prospects or practice, of any one or more City employees."

Analysis:

The Complainant provided me with press reports and other information confirming that the Respondent was publicly critical of the CAO in the early part of 2020, but for me to consider that allegation, would be contrary to the Code. The Code requires me to consider complaints only about violations which occurred within 60 days of filing the

complaint. Accordingly, for the purpose of the conclusions reached in this report, I have only considered the public criticism of the CAO made by the Respondent since December of 2020.

The Council Meeting held on December 21, 2020 which consumed 5 hours, used Webex for remote participation. This system has a chat capability between attendees which can be private or be sent to all attendees who are logged on. The CAO received a chat from a member of his staff asking why the meeting was taking so long. The CAO made a technological error and failed to make his response private. He was critical of the Respondent's involvement in delaying the meeting. The comment was ultimately streamed to the public and media but redacted from the recording of the meeting. The CAO has apologized on several occasions. As improperly pointed out by the Respondent to CTV News, the CAO's mistake was dealt with in camera. That should have been the end of it.

Decision

In my opinion, the statements made by the Respondent, both in the public letter to the Prime Minister and to the media, were purposely an attempt to injure the professional reputation of the CAO. I find them to be contrary to Section 14 (2) of the Code.

I also find that his disclosure of the fact that the CAO was "addressed" in a "secret meeting" was a release of confidential information contrary to Section 6 (1) of the Code.

It is my judgement that these infractions are serious enough for me to recommend a sanction of the suspension of his salary for 60 days beginning with the next pay period.

UPDATE ON PLACE DES ARTS' CONSTRUCTION PROJECT - FEBRUARY 16, 2021

When Place des Arts' construction began in the Fall of 2019, substantial completion of the building was planned for December 2020. The pandemic and the subsequent site shutdown that followed in May-June 2020, coupled with the provincial directives last December, moved the substantial completion date to June 30, 2021, with final completion set for July 28, 2021. With the temporary shutdown of the construction site in January 2021 and the unpredictability of COVID-19, additional delays could still impact the planned schedule.

Overall construction delays are mainly attributed to the situation of COVID-19. The impacts are both direct and indirect. The direct impacts are the mandatory site closures and the remobilization of subcontractors from outside the region. Indirect impacts are more significant and are mainly associated with the supply chain:

- The loss of productivity related to the new health and safety standards on the construction site,
- Reduced availability of manpower related to a general fear of workplace conditions,
- Delays in the delivery of materials due to plant closures, and then aggravated by reduced productivity due to new distancing protocols in the plants. These impacts vary according to the territories where the manufacturing plant is located, or according to the specific conditions of the plant (local outbreak at the plant). The size and complexity of the project requires that the supply chain extend beyond the province and country,
- Deteriorating safety conditions in downtown Sudbury which contributed to disruptions on the job sites due to loss of tools/materials, and the threat to the health and safety of workers.

PROJECT STATUS

Below, you will find details pertaining to the different phases that Place des Arts has managed since the Summer of 2020: Construction and Procurement, Design Processes, Funding and Fundraising Updates, Communications and Outreach, Recent completed Milestones.

CONSTRUCTION

The following activities have occurred and are planned:

- Structural steel assembly is complete,
- Concrete slabs have been poured,
- Work on exterior is finalized,
- Interior masonry work has started,
- Building is now enclosed, and electricity installed,

- Installation of the elevator will be done by end of February,
- Installation of curtain wall/windows and Corten panels have begun and will be finalized by February/March 2021.

PROCUREMENT STRATEGIES: THEATRE SEATING AND FIXED FURNISHINGS AND EQUIPMENT (FF&E)

Theatre seating tender has moved forward, and a hearing loop* has been added to the scope of the project (theatre, MPR, bistro, meeting room and box office).

Since the Fall of 2020, all FF&E tender documents have been issued, awarded and, in great part finalized (except deliveries).

DESIGN PROCESSES

Signage

At the end of 2020, the signage tender was issued and awarded to Visionform, an Ottawa firm that has experience with both signage design and production.

Integration of Old Cultural Materials

The upcycling, request for quotations (RFQ), retrievals and purchases of old salvaged materials are ongoing.

FUNDING AND FUNDRAISING UPDATES

Place des Arts' fundraising campaign was slowed down with the advent of the pandemic, but we remain on track to meet our stated objectives.

A marketing strategy launched in November 2020 to promote the sale/dedication of theatre seats before the Holiday season was quite successful and raised over to \$50,000 for the community campaign.

Place des Arts continues to research and apply to public funders for start-up funds, ongoing operational funds as well as funds to cover additional pandemic costs that will ultimately ensure its success with state-of-the-art technology, always taking into consideration the COVID-19 pandemic impact on our sector of activity.

Place des Arts has recently secured additional funding for part of the hearing loop* through the Sudbury's Canadian Hard of Hearing Association.

- * A hearing loop, also known as an Induction or Audio Loop, provides a magnetic, wireless signal that is picked up by the hearing aid when it is set to T-coil setting. Since the signal is being delivered directly to the hearing aid or cochlear implant, the sound is customized to everyone's hearing loss.

COMMUNICATIONS AND OUTREACH

Biweekly meetings between the BIA, Hein (PdA's general contractor) and PdA are held to keep everyone informed of the construction activities.

Place des Arts continues to publish its bi-monthly newsletter to ensure that all its stakeholders are kept in the loop. The next newsletter is currently in production and will be published at the end of February 2021.

Housekeeping Amendments to Procedure By-law

The purpose of this report is to provide information regarding a number of clerical amendments to the City's Procedure By-law being brought forward. While such amendments are of a minor and housekeeping nature, they are described in some detail below and the changes will be effected through a by-law to be approved at an upcoming meeting of City Council.

Electronic Voting

One of the amendments involves an update regarding the voting process. For the past year, staff have been working on the implementation of a new agenda management system. The new system brings a number of new improvements that will modernize the agenda and meeting process for staff, Council members and the public. One of those improvements include the opportunity to conduct votes electronically. It is anticipated that most votes will still proceed in the ordinary course by show of hands or, as currently being done with electronic meetings, by the Chair requesting whether any members wish to object or abstain from voting. When a simultaneous recorded vote is called it will be possible to conduct such a vote electronically. To do so support staff will open the voting process resulting in a prompt on Council members' devices to input their vote. Once members have voted support staff will close the voting process and the result, as well as the individual vote of each member, will be displayed on the screen for the benefit of the viewing public. The amendment will provide that a simultaneous recorded vote may be conducted by electronic means.

Electronic Participation for Closed Meetings

Paragraph 11.12 of the Procedure By-law provides that electronic devices shall be turned off during closed meetings with the exception of devices used by members and staff to access electronic agendas or presentations for such meetings. An amendment will make a minor amendment to include the purpose of using a device to participate in a meeting electronically.

Reporting Lost Items from Committee

Paragraph 12.04 of the Procedure By-law provides that Council will make a decision regarding items that are lost on a tie vote at Committees. A clarification to the by-law is required to provide that such requirement would only apply to main resolutions that are lost at Committees as it would create the absurd result of Council having to consider an amendment independent of its main resolution. As always, members have the ability to pull matters from Committee for separate vote at their discretion.

Motions Presented at Committees

During the most recent revisions to the Procedure By-law in 2019, provisions were added to allow Council members to participate in debate and discussion at Committees for which they are not members. For matters that involve public hearings, consent of the particular Committee is required to allow non-members to participate. In either case, non-members are not permitted to vote. Similarly only members of a Committee are permitted to move and second motions.

It is important that matters on agendas, including Members' Motions, be placed on the Committee to which the subject matter relates in order to ensure City Council meetings are as efficient as possible. An amendment is required to permit non-members the ability to present Members' Motions on Committees for which they are not members.
