

2023 Budget Public Input - Engagement Overview

Presented To:	Finance and Administration Committee
Meeting Date:	January 17, 2023
Type:	Correspondence for Information Only
Prepared by:	Kelly Brooks Communications and Community Engagement
Recommended by:	Chief Administrative Officer

Report Summary

This report provides information regarding the community engagement for the 2023 Budget.

Relationship to the Strategic Plan, Health Impact Assessment and Community Energy & Emissions Plan (CEEP)

This report supports Council's Strategic Plan in the area of Strengthening Community Vibrancy by ensuring residents and community groups have opportunities to be engaged and share feedback throughout the 2023 budget process. There is no direct relationship to the CEEP.

Financial Implications

There are no financial implications to this report.

Background

Public engagement is a key component of the annual budget process. It allows interested residents to review, understand and comment on the information used to prepare the annual proposed budget. It is essential to ensure the views of residents are reflected and presented to City Council as they undertake budget deliberations.

In addition to online surveys via our Over to You website, paper surveys were also available at all libraries, Citizen Service Centres and the One-Stop Services counter at Tom Davies Square. Those who were not able to access the survey online or in-person had the option to call 311 to complete a survey over the phone. While only a small number of people used these methods, it was important to provide different options to ensure residents could share feedback in the way that worked best for them.

The Over to You website also allowed residents to use the City's tax calculator to see which portion of their taxes support various service areas. By entering their address or roll number, residents could see their total taxes for the year, with a detailed breakdown of what amount goes toward education and what amount goes toward different municipal service areas.

Following the tabling of the budget on January 17, 2023, virtual information sessions for the public are tentatively scheduled for February 1 and February 6, 2023. Once dates are confirmed, the sessions will be promoted via Public Service Announcements, the City website, Over to You and social media accounts. They will be open to all residents of Greater Sudbury. Those who are not able to attend a session will have the opportunity to review the information and share feedback on Over to You or via 311.

Promoting Budget Engagement

Budget engagement opportunities were shared with the community through a variety of channels, including:

- Public Service Announcements
- City website
- City social media (paid and organic)
- Over to You engagement platform
- Community partners and stakeholder networks
- At City facilities, including libraries, Citizen Service Centres and One-Stop Services at Tom Davies Square
- Bell Park digital display board
- Through 311 customer interaction via email, chat and phone

Social Media Engagement

During the engagement period, information on the budget process was shared on Twitter and Facebook. During that time, 30 individuals engaged with unpaid content on Twitter and 156 individuals engaged with unpaid content on Facebook by either liking or commenting. The unpaid content reached 5,150 accounts on Facebook and 1,081 accounts on Twitter. Through social media ads, 48,598 people were reached and 1,264 users clicked the link. Altogether, through paid and unpaid social media, 54,829 individuals were reached.

What We Heard

This is the fifth year that budget engagement has been offered online through the Over to You engagement platform. In that time, the number of engaged participants – those who actively participated by taking a survey or sharing an idea – quadrupled from 159 for the 2019 budget to 881 for the 2023 budget.

While this still represents a small percentage of the overall population, the 2023 budget has one of the highest levels of active engagement of all the projects on the platform. Of the nearly 140 projects posted since January 2018, 2023 budget is in the top five in terms of active engagement. We also saw a significant increase in participation over that for the 2022 budget, as outlined below.

The following information was compiled from the Over to You budget engagement reports. The findings reflect a sample of opinions taken from those who willingly participated, collected from both the English and French sites. This is a summary of the information collected. Appendix A includes a detailed report of the findings.

overtoyou.greatersudbury.ca

From November 1 to December 6, 2022:

- 2,800+ visits to the Over to You 2023 Budget project page (compared to 841 for the 2022 budget)
- 872 surveys completed by 857 contributors (compared to 291 surveys completed by 274 contributors for the 2022 budget)
- 71 contributions to “The Big Picture” Ideas tool by 27 contributors (compared to 11 contributors for the 2022 budget)
- 881 residents were actively engaged (contributed to ideas or completed a survey)
- 1,594 participants were informed (viewed videos, engaged with content or visited multiple pages)
- 2,449 participants were aware (visited at least one page)

Summary of Key Findings:

- 45 per cent of respondents said they are somewhat familiar with how property taxes work
- 15 per cent said they were very familiar
- 23 per cent said they were kind of familiar
- 18 per cent said they were not very familiar

The services respondents said were very important, in order, are:

- Winter Maintenance (85 per cent) and Road Maintenance and Construction (85 per cent)
- Drinking Water, Wastewater and Stormwater (81 per cent)
- Emergency Services (80 per cent)
- Garbage and Recycling (74 per cent)
- Recreation Programs and Facilities (63 per cent),
- Long-term Care - Pioneer Manor (60 per cent) and Economic Development (60 per cent)
- Social Services (57 per cent)
- Communications and Engagement with Residents (47 per cent)

- Transit (40 per cent)
- Libraries and Museums (34 per cent)

Demographics:

- 97 per cent of respondents identified primarily as homeowners or renters
- 3 per cent of respondents identified as business owners
- 0.5 per cent respondents identified as living out of town but work or own property in Greater Sudbury

Information sharing:

When asked how they learn about City programs and services, respondents identified the following:

- City website (61 per cent) and news media (61 per cent)
- Social media in general (49 per cent)
- City's social media channels (45 per cent)
- Family and friends (38 per cent)
- Other (5 per cent)

Ideas

The online Ideas tool for the 2023 Budget engagement saw 121 visitors and generated 71 contributions by 27 contributors. The tool allows visitors to the page an opportunity to like or vote on an idea to share their support. A list of the ideas can be found in Appendix A.

atoilaparole.grandsudbury.ca

There were 22 visits to the French engagement site and four surveys completed. No ideas were put forward. Due to the low participation, results from the surveys can be found in Appendix A.

Additional feedback

Additional feedback received by community members through the upload feature on Over to You can be found in Appendix B.

Fix the bloody roads & sidewalks. NO more legacy projects & stop the madness with consultants. More affordable houseing. No more round about

Defund the police

Immediately reduce the police budget by 10% and reinvest that money into community services and social supports that actually keep people safe (I.e. housing, education, mutual aid, social supports). The safest communities are the most well resourced, not the most policed. We must reduce the scope of policing and this starts by reducing the budget. The largest percentage of our taxes goes to policing...stop allowing our taxes to be eaten up by police, a service most have never and will likely never use.

Rent - Affordable Housing

Please address this ASAP! Rent in Sudbury is very high and going out of control, an average 2 bedroom is now \$1800 some units do not even meet rental standards. we have to choose between food and rentals, we have to skip meals and in order to pay rent.

Make Gova Plus Truly ACCESSIBLE!

Why is there almost zero information available? There's no dedicated website where you can book online, there's no information on fares or passes specific to Gova Plus, there are hardly any places to buy passes other than ON the bus (should be the same as the regular retail outlets for normal Gova), and to confirm pickup/dropoff times they don't even send emails anymore it's just a phone call that's difficult to hear....how many people use Gova Plus that have cognitive/memory/hearing issues that you're refusing to help? Not only that, but having city workers who are not medical doctors/nurses deny access without any way to appeal is such a horrible thing to do to your disabled citizens! That whole process needs an overhaul (with oversight and input from these citizens). This whole system is not accessible, and it's supposed to cater to those who can't take regular transit. This whole system is so backwards!

IDEAS

The Big Picture

03 November 22	Gaston Beaulieu	VOTES 0	The city should have employees that clean the side walks with the trackless sidewalk machines eat their lunch instead of going to Frobisher	This would save money on repairs and furl
09 November 22	concerned65	VOTES 1	all city managers to no longer take city issued vehicles including rentals home unless they are on call and address rentals and fleet	
09 November 22	Isaiah	VOTES 5	Force Companies to Pay for Bus Passes for Employees	Our city's dependence on cars is dangerous, expensive, and ecologically disastrous. However, without a well-funded transit system Sudburians cannot get around our city. I would propose that as part of doing business in Sudbury, all companies must provide their employees with bus passes. Doing so would incentivize bus use, thus increasing ridership and decreasing accidents, speed up traffic, and provide the resources required for a fully-funded and accessible bus system.
13 November 22	PovertyStinks	VOTES 3	Taking the buses away after 11pm is the wrong way to go abouts.	I wish the city would put in an effort and offer as much bus routes as possible of driving along Elgin for encouraging anyone who had too much to drink to take the bus. Especially at night. We need to bring back the buses to be served up to around 2am. And as early as around 5am. Workers need to be able to arrive at their work bus stop FOR 6:45 am and be ready to work FOR a 7am shift.
16 November 22	Paula Worton	VOTES 1	Parks Dept. cleans up parks in the fall. They repeat in the spring. Consider leaving leaves on the lawns to protect the insects/ water table	saves money by reducing service demand
19 November 22	Paula Worton	VOTES 1	CPAWS Municipality Fund For Biodiversity- to increase protected areas, reduce habitat degradation, enhance biodiversity and to protect	to support healthy living space, mental health and economic value for Sudbury

IDEAS

The Big Picture

20 November 22	Paula Worton	VOTES 1	<p>save money -playgrounds, carbon sinks, and community</p> <p>use Sweden's concept for outdoor play areas, tree benches, climbing and exploring areas- they biodegrade and absorb carbon. Use community ideas through a community building lens</p>
20 November 22	Paula Worton	VOTES 1	<p>Save money and support CEEP- have all capital expenditure requests go through a CEEP lens at the finance dept.</p> <p>Focus on a carbon neutral and cost saving city</p>
28 November 22	Mary Jane Veinott	VOTES 1	<p>Establish a permanent, low-barrier shelter in the downtown area to alleviate homelessness with sufficient capacity to house 100 per night.</p> <p>The shelter would offer both overnight and longer term accommodations. All clients would be registered at the shelter which would give each individual a permanent address. This fixed address could be used to apply for OW and other assistance programs. The shelter would at a minimum offer an unconditional overnight stay, 3 meals a day, and comprehensive services including, safe injection, withdrawal assistance, a secure place to sleep and to store the person's belongings, shower and laundry facilities and if requested counselling and referral services. The shelter would be staffed 24/7 including medical staff, addictions and mental health workers. Clients who request a longer stay than overnight would be given their own room. Clients showing a desire for a more stable lifestyle would have access to basic literacy training and to further education and training opportunities and the opportunity to move on to transitional housing.</p>
02 December 22	Sonia	VOTES 3	<p>Make every intersection "pedestrian first" and keep storm drains clean so pedestrians don't have to puddle jump to catch the bus</p> <p>Pedestrians are exposed to the elements and choose sustainable transport. The city should take this into account and reward people who actively control their ecological footprint. "Pedestrian lights first" for every intersection is one way the city could show respect to pedestrians.</p>
04 December 22	dogpatch45	VOTES 0	<p>The city should have its own "road construction and repair" team and equipment!!</p> <p>The city streets are in terrible shape. Our own team would be far less expensive in labour costs, and would use far better materials. I also think it should be funded by VALE.</p>
04 December 22	J-Y Bujold	VOTES 0	<p>We must have across the board consistency when applying construction parameters as per well documented and proven industry track records.</p>

06 December 22	Linda C. Makela		
	VOTES	0	0% tax increase - NO to Junction East says senior on fixed income Start with that. Never should have built Place des Arts. As far as parks cleanup (Paula Worton), get recipients of Ontario "Works" to do that. As far as policing, let's get more boots on the ground and cars on the streets. Be as worried about response times as the fire folks are. If it costs more, so be it. I believe if there is one area in which more money should be spent, that is it. As far as the Strategic Plan, some good ideas there however we just don't have the money to implement them during the current financial climate. Put anything new on hold. That includes Junction East. The projects for which money has already been borrowed (e.g. KED, Junction) should all be stopped. Put the monies into housing if you can. Or roads. Instead of using federal monies for consultants re: homeless (redoing same old so many times) just get the tiny home project underway. Add a modular for support staff to work out of. No more fancy buildings! Maley is great ... but what do you think about the access roads for example Barrydowne? Most of the time I just take Lasalle to Notre Dame to go north to the Valley because I don't want to wreck my vehicle getting onto Maley from New Sudbury ...

	VOTES	1	COMMUNICATION IS KEY TO A GREAT CITY! Found out about a 2023 budget survey on December 6th via local news... Try and find it for literally an hour with no success. This city really doesn't want to hear the truth. I normally stay away from this because this city has demonstrated time after time that its citizen opinions do not matter!!!
06 December 22	Shemac1		
	VOTES	0	Cut city expenses Our mayor is the highest paid mayor in all of Ontario. Our counselor wages are also up there. Too much money spent on frivolity and not enough spent on need and infrastructure. Stop wasting our money and overtaxing us.

Mazie McGlade		Put Pioneer Manor out to tender.
	VOTES	
	0	2017 you were given a directive to have Pioneer Manor put out for the private sector. This has never been done and we continue to support this on backs of taxpayers. You took out a 120 million dollar loan on something that should not be run by a City. We are the only City in Ontario to do so.
07 December 22		
Tom Colton		Average salaries and benefits at the City should reflect average salaries and benefits paid to City taxpayers.
	VOTES	
	0	For example, all new employees at Vale get a defined contribution pension. At the City the more expensive defined benefit is still the standard. The list goes on and on. City spending is out of control. The solution - freeze all remuneration at the City until a fair balance is achieved with those who pay taxes. A good accountant can work out the details. No need for layoffs. You're welcome.
08 December 22		
SSweet		Cutting Transit is Not the Way Forward
	VOTES	
	4	I believe that cutting transit services is not the way forward. I believe that people have a right to be able to get to places without needing to buy a car. If we implement these proposed changes, we are making it harder for everyday people to convert to transit and forcing them into a habit of car dependency. I think that instead of the proposed cuts to transit, we should focus on making transit better for the people of Greater Sudbury. While I think having an additional route servicing the valley would be great, I think the proposed route should operate as an "all stop" service as opposed to an express service. Doing it this way would allow for people living along the corridor to use the additional route to get to and from downtown and may even increase ridership on the existing route 105 due to there being more services to pick from. One thing that may not be feasible is the 45 minute round trip time, I think it would make more sense for the route to have a 60 minute round trip time, with a 3 minute break for the bus driver at the Hammer Mall. I also think the route should have a frequency of every hour instead of every 2 hours. This would make the new line a more viable option for travelers. With respect to #22, replace it with #21. Before the pandemic, #21 served a larger area and had a higher frequency compared to #22. As for #23, it should continue to be interlined with #20 outside of peak periods. I think that if the city were to remove #4, they should adjust #3 to have a faster travel time so transit will stay a viable option for students. If the city were to reduce the travel time of #3 enough that the bus could complete the route in 45 minutes or less, the city could run a bus every 15 minutes with 3 buses as opposed to the current 4 buses used by both #3 and #4. This may result in savings. I do not think that closing the Downtown Transit Hub while there are still buses running is a great idea. While I wouldn't be opposed to the ticket booth being open less since you can buy passes at other locations, I believe the building itself should be open from when the first bus arrives to when the last bus leaves. Closing the Hub in the middle of winter at night when it is very cold would be very uncomfortable for travelers. This may cause them to consider other modes of travel like driving. With regards to the lowering of service hours, I believe that we should not cut off transit service at 11:00pm. Instead, keep weekday hours the same and extend Friday and Saturday services to ~2am covering last call, which might help reduce the amount of drunk driving incidents.

Drinking Water, Wastewater and Stormwater	This service is important
Communications and Engagement with Residents	This service is important
Economic Development (Attracting and Retaining Jobs and Businesses/Attracting Visitors and Tourists)	This service is important
Emergency Services (Police, Fire and Paramedic Services)	This service is important
Garbage and Recycling	Neutral
Libraries and Museums	I don't know / I don't use this service
Long-term Care (Pioneer Manor)	I don't know / I don't use this service
Recreation Programs and Facilities (Arenas, Pools, Parks, Sports Facilities, Ski Hills, Community Halls)	This service is important
Road Maintenance and Construction	This service is important
Social Services (Children Services, Ontario Works, Housing Services)	This service is not important
Transit	Neutral
Winter Maintenance (snow plowing, sanding/salting roads and sidewalks)	This service is important

Q3. From your perspective, and recognizing that not everything is within City control, what are the most important issues facing the City at the present time (ranking 1 as most important)?

1. Cost of living
2. Governance and transparency
3. Economy/Jobs/Economic issues
4. Infrastructure/transportation
5. Health/Public health issues
6. Environment/environmental issues/sustainability
7. Mental Health and Addiction
8. Property taxes
9. Housing/accommodations
10. Social issues (e.g. poverty, social services, childcare)
11. Access to recreation facilities

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

I believe it would be loss of time due to an outdated traffic light system. Take the Netherlands for example they have smart traffic light system/AI that dramatically reduces wasted time waiting at red lights.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I sincerely believe the city of Sudbury hires too many people for the wrong work. For example many city employees are not monitored enough and deliberately work the least as possible to stay employed. As an internal employee I have also seen a lot of corruption in the hiring process, many people that are hired are friends with the hiring manager. This causes instability in the job market and unfair wages. Furthermore, when employees work hard to achieve their goals they are simply not valued enough by management in my experience working for the city. I believe the city needs to look into their internal departments to prevent further budget cuts and financial losses. Thank you kindly for reading. ~ A concerned employee.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

That the City stops wasting our tax dollars on false hopes and unrealistic dreams. Need to create a balanced budget that puts its citizens first.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Stop scaring away business. Create a welcoming environment for large employed who have wages that are above the city's median wage. Stop making pretty documents with infographics that make your dumb decisions look better. I want hard black and white numbers. Stop hiring consultants. If you don't live here you don't get a say. We have well informed and educated residents that are more than capable of helping to make wise decisions. Less self serving choices and more wise choices.

Stewardship & Value for money

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Pause the focus on recreation that is not environmentally friendly or healthy, like big new arenas beside a dump. The Junction also. we need to focus on the economy and encourage businesses to donate and contribute to the community. Why not share facilities with charities and churches for now like what was done with the Symphony & Glad Tidings. So much efficiency is needed. Empty buildings and lots downtown should be converted to housing in Private/Public partnerships. Care homes should be operated by companies more efficiently like Autumnwood

Wasteful spending in the downtown core and the new library.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please focus on core services that our city needs. Stop building new things, stop paying for proposals on new projects. We have a great library system already in place and other great services. Focus on strengthening those instead of creating new things. Improve building services and remove red tape for businesses looking to come to Sudbury and offer good paying jobs.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

For the past 2 years the people of Greater Sudbury have been stressed mentally and financially. It's time for the city governance to perform their duty to examine city infrastructure and separate the "wants" from the "needs". We should only be supporting projects that we can afford to. If anything council has made it clear they are in favour of supporting the Sudbury facade over its people. Taxes are inevitable, however council has always been reactive to taxes increases, rather than proactive. This next council meeting (Nov. 8) is indicative of that, you can't tell me you did all you could 2 months before the new year. No more 100% tax payer funded legacy projects until inflation and our cities debt is addressed. This passed council has relied too heavily on our reserves as a safety net. Examine where we can make cut backs, make those cutbacks and start investing that money in our ballooning infrastructure debt. If the refurbishment or investment in a new arena is the goal, ACTUALLY create a plan and do not rely 100% on the tax payers.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The largest percentage of my taxes goes toward police, a service I have never used in my life and will likely never use. We must defund the police immediately. It is absurd that their budget continues to increase year after year at the expense of things we actually care about and need in our community. Things that actually keep us safe (I.e. housing, education, social assistance, community development, etc.). Also, for this survey, stop lumping police in with emergency services...we can see in the budget breakdown that they are separate line items. Paramedics remain underfunded and are actually a life saving and necessary service while police eat up the budget and cause more harm then they prevent.

There seems to be flaw in the choices. The last few started with a 4; not giving choice of 1, 2, 3.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Council must reject the Junction East project as being terribly out of context of everything Sudbury is. Besides, it is outlandish in its design and too rich for the average taxpayer. We have to get our infrastructure debt under control.

Please do not eliminate the midnight bus. If end up working late sometimes I have to get that bus from downtown. If I was to take a taxi because of no bus it is atleast a \$30 cab ride. And what about all those that work at the tax Center on the evening shift. It goes until 11:30 and there isn't enough parking so many take the bus. I feel by eliminating the midnight bus you leaving so many stranded.

Community lacking pride and respect

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Sudbury in general is not a beautiful city. There's no sense of pride, respect, and quite frankly honor in our community of sudbury. There are small pockets of great areas to live and relax, but in my opinion the entirety of downtown core has evolved into a repulsive beast. I have no idea how to solve this "man-made" issue, however it is the first thing that comes to mind when I think of problems in Sudbury.

Q1. How familiar are you with the city's budget and property taxes?

Kind of familiar

Q2. Please tell us how important the following services and programs are to you and those in your household.

Drinking Water, Wastewater and Stormwater	Neutral
Communications and Engagement with Residents	Neutral
Economic Development (Attracting and Retaining Jobs and Businesses/Attracting Visitors and Tourists)	Neutral
Emergency Services (Police, Fire and Paramedic Services)	This service is important
Garbage and Recycling	Neutral
Libraries and Museums	Neutral
Long-term Care (Pioneer Manor)	Neutral
Recreation Programs and Facilities (Arenas, Pools, Parks, Sports Facilities, Ski Hills, Community Halls)	Neutral
Road Maintenance and Construction	Neutral
Social Services (Children Services, Ontario Works, Housing Services)	This service is important
Transit	This service is important
Winter Maintenance (snow plowing, sanding/salting roads and sidewalks)	This service is important

Q3. From your perspective, and recognizing that not everything is within City control, what are the most important issues facing the City at the present time (ranking 1 as most important)?

1. Housing/accommodations
2. Infrastructure/transportation
3. Mental Health and Addiction
4. Governance and transparency
5. Cost of living
6. Social issues (e.g. poverty, social services, childcare)
7. Property taxes
8. Environment/environmental issues/sustainability
9. Health/Public health issues
10. Access to recreation facilities
11. Economy/Jobs/Economic issues

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Accessibility was not mentioned once! This town claims to be accessible, but there are so many businesses that have the "accessible" placard but have stairs or are too narrow for wheelchairs and walkers. This needs to be addressed!

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

DO NOT CUT OUR TRANSIT SERVICES! A good portion of our community relies on public transit as their ONLY means of transportation. And with society trying to adopt "greener" ways of running things, it would make sense to invest MORE money into transit, not less. Sudbury has always catered to the citizens who had vehicles, and it's time to get with the program and begin catering to more sustainable options. Not only that, but when amalgamation happened, you all promised that service would be the same everywhere, but that's obviously not true. The outlying areas are consistently underserved in just about every way possible. Plus, many of us transit riders already had to give up quite a bit when they revamped the bus routes, and the number of bus stops was reduced quite a bit. I used to have a bus stop right on my street, but now it's 3 blocks away and since my accident ON THE BUS, that's a far walk. And I was denied access to Gova Plus, despite having both my doctor's and OT's approval. Having city workers who are not medical doctors/nurses deny access without any way to appeal is such a horrible thing to do to your disabled citizens! That whole process needs an overhaul (with oversight and input from these citizens). Speaking of Gova Plus, why is there almost zero information available? There's no dedicated website where you can book online, there's no information on fares or passes specific to Gova Plus, there are hardly any places to buy passes other than ON the bus (should be the same as the regular retail outlets for normal Gova), and to confirm pickup/dropoff times they don't even send emails anymore it's just a phone call that's difficult to hear....how many people use GP that have cognitive/memory/hearing issues that you're refusing to help? This whole system is not accessible, and it's supposed to cater to those who can't take regular transit. This whole system is so backwards!

Please allocate funds to the Onaping Pool so we can continue to use these wonderful services in our own communities. Remember the outlying areas and communities and stop prioritizing the downtown core over us, we pay just as much or more in city taxes without having consistent bussing services and most of us do not have city water or sewage and our back roads are in terrible shape.

Please don't forget about the citizens who rent and so don't pay property tax. We depend most heavily on the City's no and low cost services and we also have a vote. Rental costs in this City are insane. Please continue to provide your support to Libraries, Museums and City Leisure programs and to local arts and culture grants!

There are services and City staff roles that need to adapt and modernize and it feel like the City is always getting stuck in the past and is afraid to try new things. More services could be contracted out to local businesses and experts rather than the city continuing to post part time and seasonal roles and having issues filling them. Some seasonal and part time positions could be made permanent full time if roles started sharing responsibilities and departments collaborating which would help with retention and succession planning and long term help reduce budgets.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I'd like the Mayor and Council to look at the City's budget like they would their household budget. If there is only so much revenue, how do we best spend it and cut the necessary corners by looking seriously at wants versus needs. Yes, it will be felt by the taxpayers, but if no tax increase is the desired outcome, this needs to be done. Something needs to give. If our household income is only \$75,000, we need to keep our spending within our means. We do not get an increase in our salaries every year, and raising taxes by an 'agreeable' 3.5 - 4% every year is just not sustainable for the average household. Even if we do get an increase, it would be nice to not have to apply it to a municipal tax increase. It's time the Mayor and Council make some tough decisions and truly look at ways to not have a tax increase. If there is an opportunity to be part of a group of concerned residents doing a deep dive into this, I would volunteer to participate. Coming from a background in fundraising, we need to use the 'every \$50 dollars matters' mindset.

In the short run anticipated spending on Junction East that is a want and not a need. With our present huge debt for our infrastructure we need to deal with inexpensive wants and necessary needs.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The questionnaire forced me to chose between services. They are all important and need to all be adequately funded. Ditto for Rankings of issues. Covid has made many of these issues worse and has strained services. Many of the rankings should be the concern in whole or in part of the provincial government. Has to be largely a needs based budget. Wants can be factored in to future budgets when we get our infrastructure debt under control. We need strict planning to prevent development beyond existing infrastructure. We need to maximize us of existing wire, pipe and road infrastructure in order to reduce costs. We need to recognize that our forced amalgamation by the Harris Government created a city that is inherently inefficient. Population density is too low, too spread out and too diverse to effectively and efficiently meet the needs of all those in the amalgamated city. This millstone around our necks has to be removed as our amalgamation is the worse by far of all those accomplished in the late 1990's.

Make transit reliable and accessible to every part of the city and there would be less vehicles on the roads and also more economic opportunity since jobless people wouldn't need to "save" for a vehicle in order to get to work.

Encourage broader collaborative efforts from the federal and provincial to address the lack of suitable and affordable housing units on the Greater Sudbury Area. Addressing the lack of suitable housing as a public health issue.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

There are trillions of dollars that come from Northern Ontario communities situated on stolen Indigenous lands that form the basis of Canada's economy. As Indigenous nations continue to advocate for the assertion of their inherent rights, municipalities have the responsibility to stand next to their Indigenous neighbors and advocate for their own municipal rights as assigned by the provincial government delegated to them by the federal government. Northern issues require northern voices through collaborative efforts and initiatives based in sound research and data.

New Arena. Arena's are not money makers for communities. 5000 people attend Wolves games. 34 games a year for arena use and rental. Not much else goes on at the arena. The population is just over 164,000 persons. 100 Million to appease 5000 persons and an OHL owner does not sound right. I love to ski at local hills in Sudbury. You threaten to close down ski hills because of cost. Those hills are a drop in the bucket compared to the cost of the fancy arena. Owner threatening to take team out of city without new arena. Let him build it. Many articles on Sports Arenas being bad business for cities. I hope that council has included those in their research. If you don't look at both sides of issues you will likely make poor and costly decisions. Think of the money that you are spending for Tax Payers like it is out of your own pockets. 100 Million dollar library ect... I hardly see many of people in libraries anymore. Personally I love the library and the brick and mortar does not prevent me from enjoying them. I marked Libraries and museums as not important even though I don't believe that. Your survey does not allow me to select they are important but so is the cost! I always find these surveys as being never leaving the individual to answer appropriately. But it is clear the surveys purpose is not to elicit a citizens true thoughts. However they do attempt to dictate your responses by the way they are presented. I am will to write the next survey for you for free and I will ensure that it will be appropriate and elicit the information that is required. I know this will never be before the mayor and council but I believed I needed to take the time to complete it.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

The influx of homeless being sent to Sudbury and standing in the middle of the roads begging. It makes the city look bad and is a hazard as they run in and out of traffic. Deal with that and raise the tax base.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

It's hard to justify so many tax paid employees on the sunshine list. The budget should be looked at with wages in mind. Management is paid way too much to justify the job performance. Police have become a bunch of punks, not all of course yet a good many are paid quite a bit to act as punks. Stop the waste. Stay out of business, let private investors buy their own businesses. The city is not a business. Also, put the subcontractors to task. A good pay for a good job. They purposely waste time for more money. Maybe some accountability on that end.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Shouldn't be starting budget deliberations trying to meet a target increase. You should be trying to avoid an increase at all costs by analyzing each department's viability. Don't just take last year's budget and add X%. Study the expenses and see what's necessary vs what's redundant.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

As a larger family (4 children) the cost of living has certainly increased. We continue to see our taxes go up, but feel a real lack of services. One of the biggest concerns living in a smaller community within Greater Sudbury is that our area is forgotten about. Our roads are terrible, our recreational services are all in aging and crumbling buildings, there is no support for the youth in our community and then when it turns to winter, our road and sidewalk maintenance is laughable. I have no issue with a tax increase, as long as its being used properly. Unfortunately this city doesn't have a great track record and mismanagement of funds and allocation of funds has been prevalent.

Although I have rated economic issues as #5, building controls is a major issue. I lived through it and it was very costly and inconsistent. I have been told so many horror stories of businesses wanting to build here but do not because of the red tape.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please work on attracting more industries and businesses to the Sudbury core. Change the building controls processes and I want to say the person in charge too. This will help generate more revenues and lessen the burden on the Sudburians. Our city has so much potential.

As an elected official you hold the power to drive this city forward into the next decade. You were elected because we trust you to make the best decisions for the future not what constituents want now. As a leader you have the power to make hard decisions even though it might go against what the masses want now. Be a voice of reason and assertiveness. Do not let your political agendas shadow your judgement and voice of reason. Now is the time to reinvent yourselves. Move on from previous decisions and become a council that we can be proud of, that people will remember as one of the greats that fundamentally changed the the way that we do things in Greater Sudbury.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

We need to make decision and be done with it! Things like projects taking 18 years to complete and sometimes never getting completed because people can't agree or make a decision is terrible. Not everyone is going to be happy all the time. That is just the fact. of the matter. So as our LEADERS you need to make a decision and follow through on it even if some people aren't happy.

Remove the homeless and addicts and prevent them from harassing people for money. Panhandling/begging should be illegal and enforced. Citizens don't feel safe going downtown, and even at intersections these people are accosting drivers.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

User fees are fairer across the board, instead of everybody having to pay for everything. i.e. swimming pools, camping, etc. Also we shouldn't need over 3000 staff to run this city. Amalgamation was supposed to reduce these costs and duplication but obviously hasn't.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I'd like to see a change in the mentality of departments and managers that they "must" spend the money left in their budget at the end of the year by fear of having a reduced budget next year. Most of us citizens who have friends that are staff or have friends who work for businesses that deal with the city hear stories about this wasteful spending. It is frustrating as a citizen when you hear that someone's manager spent x dollars on something that wasn't really needed or equipment that goes beyond what they needed just because they had the budget left for it. While it's possible that not everything is true, I highly doubt that there isn't some truth to these stories. Therefore, I think it would be nice if there was some oversight or a mechanism in place where end of year purchases need secondary approval to make sure it's not wasteful. Also, congratulating managers who find savings during a fiscal year should be encouraged and not compromise their budget in the future. It may not lead to millions recuperated, but even if it's a few hundred thousands saved per year, a change in how the city operates and thinks about its budget should be looked over at a time where most are struggling financially.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The Mayor and Council should run the City of Greater Sudbury like a business and live within our means (e.g. a balanced budget and a reasonable and affordable tax levy). They should possess the common sense necessary to distinguish between essential services, desirable services and nice-to-have services. They should possess and/or develop a keen sense of business management and adopt a balanced budget, no matter what, except in cases of utter emergencies. They should be able to review existing services to determine which ones are truly public services and which ones could be delivered by the private sector. The City should not be operating businesses but instead, should make sure that the residents have access to the necessary services, a lot of which could be delivered by the private sector (e.g. Home for the Aged, Arenas, Ski Hills, etc. The City could then divest itself of such services which currently and consistently operate in a deficit. The City should not subsidize deficits of local organizations and/or private businesses which should be able to live within their means and strive based on user fees and the law of "supply and demand". If they cannot do so, they should unfortunately sell or close their doors. Council should be able to guide the staff as opposed to being led by the staff. The Mayor and Councilors should be able to develop "a tough skin" to allow them to make and abide by difficult decisions. They should learn to say "no". They should not act based on the potential outcome of the next election. They should realize that it is impossible to please everybody and that is impossible for the residents to support the Council's decisions when our basic needs are not met. It is impossible for someone who is struggling to make ends meet to feel enthusiastic about a brand new arts center, for example. The Mayor and Councilors should be immune to the tactics of "the squeaky wheel gets the oil. They should support our local economy by accessing our very own talented professionals, organizations and/or residents instead of retaining those from Toronto or other cities (i.e. architects, consultants, contractors, etc.). Finally, the Mayor and Councilors should appreciate the value and contribution of its outlying areas in the City of Greater Sudbury (those located outside the boundaries of the city of Sudbury) and stop trying to bring everything downtown. What would be so wrong about spreading the services around in an equitable fashion and for residents of the City of Sudbury to travel in turn to outlying areas for some services... My greatest wish is that this City Council finally demonstrate the necessary common sense and leadership worthy of municipal leaders of a municipality such as ours. May they act as role models. May they make the best sound business decisions on behalf of the residents. May they help to re-instill our trust and confidence in our City Council and our pride in being residents of this City.

Zero tax increases or tax the rich corporations. Does Vale pay their fair share? Take retirees into consideration. Why are we still paying education taxes with no children in school? Look for cost savings ie why some of the most expensive flowers throughout the summer in planters? Why over 600 on sunshine list? Does the city have this many leadership roles? Remove the white crosses. That plot of land is not a cemetery it's shameful. Do something with the graffiti hospital.

Cuts and changes to how current services are being conducted. Less full time firefighters and additional duties in between emergency calls. Ensure firefighters are not collecting additional pay, such as unnecessary overtime hours. Reduce transit runs and bus sizes to accommodate the number of people using the service. Cancel the building of the new library and arts building. Build a new arena and events centre at South Ridge Mall. Evaluate the cost of having the Kukagami Lake and road area in the city. Have it returned to an unorganized area. Attract new businesses to the city by eliminating obstacles.

Crime/Drug use (Maybe we should have a few more Cannabis stores in Sudbury there are a couple blocks currently without them?)

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Attracting visitors/tourism suggests we are interested in cleaning up the City and focussing on attractions snowmobiling, cross country skiing, ice fishing in winter- camping and fishing etc in summer, We introduce tourism to people with begging on the streets the General Hospital disgrace the crosses in a park downtown much less the downtown core itself. The main arteries in winter should be cleared of snowbanks.

0% increase to our taxes please. As seniors on fixed income how are we supposed to pay 3.7% or more year after year, compounded? Everything is going up. Groceries 11.6%! We had to cancel a cross-country trip because of the cost of gasoline. Yet we have to pay "our share" of the cost of the Place des Arts and now Junction East? Who are these buildings supposed to benefit? Not us, that's for sure.

Please stop grouping Police Services, Fire Services and Paramedic Services on the same category on your survey when they are not the same. Police services are responsible for significantly more of the budget. This is not transparent.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The scope of policing must be reduced and the police budget must reduce to reflect this. The majority of my taxes on a monthly basis fund a system I never use and does not do what it thinks it does. It is well documented that policing does not prevent crime, it only responds to it, but the police budget continues to see significant increases each year. Instead of taking money from line items that actually make sense, council is talking about reducing transit service - from a service responsible for 2% of the budget...really? All the while the city has made a commitment to increasing transit service and ridership. It's so disappointing. Things like transit, education, a living wage, affordable housing, affordable recreation, mental health supports keep people safe, not cops. We do not need police in schools, directing traffic or doing cutesy things like handing out cookies and stickers on the first day of school. This services is too expensive for the return on investment. The city needs to reduce the scope of policing and invest in and create new systems of community safety. And dont not tell me it can't be done. Although it may be difficult, these conversations need to be had.

Taxes go up, I get it. But, service levels need to go up with it. Now, the tax base bring essential to revenue generation, we need to attract business and entice young families to move here. That way the same people aren't burdened by the bulk of the taxes year after year. That requires an eye towards the future and progress! We can't let a handful of rich seniors keep us a decade behind other communities.

Out of control spending and rubber stamping by city council for what seems like every pet project that comes before them. Cancel Junction East immediately.

Cut all staff vehicle allowances and fuel cards unless they are on call and only for those on call shifts. People making high salaries should not have their fuel and transportation subsidized by taxpayers. If they need their transportation to and from work paid, give them a bus pass. Same with parking. Many employees who work for the city downtown pay for their own parking.

Q4. **If the most important local issue facing the City at the present time was not listed above, please tell us what it is.**

A review of how the city performs citizen feedback. Forcing my opinions it to easily skewed categories and assuming that the people who fill out these surveys represent a statistically significant sample is bad for our city.

Q5. **Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.**

Please actually consult with people and fully ignore anything you receive through this methodology. This type of data gathering will only attract skewed views from a subset of the population which is passionate about specifics. It will not give you any statistically relevant feedback; even this note will likely count as "participation" in the pitch of this survey from city staff. This survey will create piles of junk data, suggesting a direction that can easily be framed to suit pre-existing ideas. Worse, questions 9 and 10 ask you to double down on skewing future information by getting people to check how they want to receive information. The people filling out this survey already get your information; you succeeded in reaching them. They are not the people you need to ask those questions of; it's the other 160000 people who will not fill out this survey you need to communicate with.

To allow new companies to set up in Sudbury to off set the taxes instead of setting them up to fail from the start with all of the red tape. Us citizens only have so much income . The city of Northbay seems to be getting all of the contracts for new buissnes the question should be asked why?

10. Governance and transparency
11. Property taxes

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

So many of these concerns are interrelated, so ranking them felt disingenuous at times. Furthermore, our biggest spending item is police, which I do not see listed. I would rank them at: 12 least important.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please cooperate with each other, animal control (pets) is important, no big legacy projects, improve downtown, especially the disrepair of Elm Street- it looks like a derelict neighbourhood and is difficult to see the many addicted people lying on the sidewalks, keep supporting the arts, continue to support trail systems around the city, city staff are often non responsive or take an incredibly long time to approve simple requests for such things as facility rental confirmations - need more staff or need to improve worker output?, love Ramsey Lake boardwalk and parks around the city, continue the program that sees people cleaning the roadside ditches, work towards net zero emissions, thank you for stepping up to do your best to make our neighbourhoods and quality of life better.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I believe that much of the city's financial constraints come down to an over focus on sprawling outwards. A re-evaluation of zoning law, as pertains to mixed use (liveworks, 5 over 1s, opening up the zoning to allow for malls like elm place to convert space in their building to residential), parking mandates (combination of it currently forces developers to build more parking than they may even want or need, as well as how parking lots do not pay tax the way things like businesses and housing do, and so they spread out businesses and housing increasing the burden of infrastructure costs per taxable business/housing unit). A focus on eliminating these restrictions, and then on infill development not only can address financial issues for the city but also the housing and cost of living crises for the citizens. There are plenty of patterns of development that currently are not legal in current zoning ordinance (any existing examples of these buildings in the city having been grandfathered in) that could alleviate housing supply issues if only we allowed them to be built. My mind jumps to liveworks (think a store on the bottom floor with the family who runs it living above), 5-over-1s (apartment complexes where the bottom floor is commercial and the 5 above are residential), and cottage courts (a single lot with multiple single family homes, sharing a yard) but the list is extensive, look up "missing middle housing" to learn more.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

For the love of god PLEASE improve the bus transit system. The reason why it's not profitable is because it's UNUSABLE for so many people. The people who use it have literally no choice, and as you cut more and more of it, it becomes yet again unusable for even more people in the city. BUILD IT AND THEY WILL COME.

Q6. If you have further information to share with the Mayor and Council as they prepare the 2023 Budget, please attach a pdf here. not answered

One of the most important local issues is the condition of our roads. Patching is not the answer and is a waste of time and money. There should be an organized plan to pave entire streets. Also I think developers should be responsible to build side walks

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I don't think the city should run campgrounds like white water park or long term care facilities. There are private providers for these services.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I believe that much of the city's financial constraints come down to an over-focus on sprawling outwards. A re-evaluation of zoning law, as pertains to mixed-use (liveworks, 5 over 1s, opening up the zoning to allow for malls like elm place to convert space in their building to residential), parking mandates (combination of it currently forces developers to build more parking than they may even want or need, as well as how parking lots do not pay tax the way things like businesses and housing do, and so they spread out businesses and housing increasing the burden of infrastructure costs per taxable business/housing unit). A focus on eliminating these restrictions, and then on infill development not only can address financial issues for the city but also the housing and cost of living crises for the citizens. There are plenty of patterns of development that currently are not legal in the current zoning ordinance (any existing examples of these buildings in the city having been grandfathered in) that could alleviate housing supply issues if only we allowed them to be built. My mind jumps to liveworks (think a store on the bottom floor with the family who runs it living above), 5-over-1s (apartment complexes where the bottom floor is commercial and the 5 above are residential), and cottage courts (a single lot with multiple single-family homes, sharing a yard) but the list is extensive, look up "missing middle housing" to learn more.

Q5. **Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.**

Many of the priorities listed overlap. For example housing mental health and cost of living. Transportation and protection of land and water. Putting these things in silos instead of groupings makes for unnecessary controversy. If the priorities were listed as principles to govern by it could help unite the community.

underpinning two: We need visionary ideas to attract sustainable/low-impact industry. We have the space and people are moving up here in droves. Remove the barrier of industry sponsorship of arenas, etc. Our rec facilities are a provincial embarrassment

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

How can a city allow industries to vet water and soil studies but not sponsor recreational facilities? Remove this barrier. We need to encourage industries and private businesses to sponsor our recreational spaces including our brutally embarrassing arenas and lack of regulation size pool. We are not a podunk, backwater village, we are the gateway to the north. Let's stop using the cost of roads (an issue in literally all northern cities who also have modern rec facilities) as a reason why we can't support better facilities. Also, the state of our downtown is not a mystery. Let's stop scratching our heads about this: Meth clinics+Bus depot+Bail court+ multiple homeless shelters= A downtown that reads like a scene out of The Walking Dead.

Public boat launches on all lakes

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please make sure to properly deal with the boat launch issue on wahnapiatae lake. I don't want to see the one on poupore closed down, I want real resolution to the issue such as more bylaw officers in the area to enforce parking. Also bring back the fire station and rescue boat to skead its not safe to take away all the resources from a community so far from town

Homeless/ panhandlers/ economically devastated individuals

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please find a way to help the less fortunate. And I don't mean by just giving out money, truly help economically devastated people. When I see all the crosses downtown and all the homeless trying to catch a nap here or there. And it's not just the downtown area, it's in the south and a new Sudbury too. I just feel as human beings we have to do more.

Q3. From your perspective, and recognizing that not everything is within City control, what are the most important issues facing the City at the present time (ranking 1 as most important)?

1. Property taxes
2. Infrastructure/transportation
3. Cost of living
4. Governance and transparency
5. Health/Public health issues
6. Economy/Jobs/Economic issues
7. Housing/accommodations
8. Social issues (e.g. poverty, social services, childcare)
9. Environment/environmental issues/sustainability
10. Mental Health and Addiction
11. Access to recreation facilities

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Lower the cost of Drinking Water, Wastewater and Stormwater -- generally the water and wastewater surcharge bill

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

*Lower cost of water and wastewater bill *Improve public transportation especially outside the city (more frequent buses and add bus stops). Build a train system in areas like the Valley, Lively, Chemmy, etc. for easier, faster connectivity and more convenient travel. This will greatly help locals to get around and attract tourists as well. Moreover, it will lower cars and gas emissions to the environment. *Lower property taxes *Add street lights especially in the highways such as Maley. There are a lot of spots without street lights and it's hard to see at night and during winter which could cause accidents.

Q6. If you have further information to share with the Mayor and Council as they prepare the 2023 Budget, please attach a pdf here. not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The cost of water and waste water is ridiculous and this should be looked at. As an almost senior it is making it very difficult to stay in my home, and where would I go if I sold. There is no assistance from government for those that do not have children, are not on social assistance and are 60 to 65 and live on a pension ,makes it very difficult Also need to address how the city of Sudbury Communicates, we have left 4 messages for bi-law, no return call, also went into the building to ask questions, person at front desk was wonderful however everyone she tried to reach by phone did not pick up...this needs to be addressed as your staff are not returning calls or picking up their phones

Homelessness, however this is also related to cost of living and addictions services. You can't fix one of these at a time there has to be a combined effort.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

It seems to take a really long time for the Mayor and Council to come to a decision about anything. I am not from here originally and I am dumbfounded by how long it takes for this city to progress. the population has barely budged in 20 years and yet there are hundreds of McMansions sprouting up all over.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Cut costs. Police have to trim their budget. Go back to weekly garbage collection. Spend more on road repairs. We don't need a new library and arts center, cancel the project. Sell pioneer manor to the private sector. Build a new arena for a reasonable cost like they did in the Sault. A perfect site for a new arena would be the land where the Ambassador hotel and the soon to be available Extendicare property. Buy the old palm dairy site and the MIC restaurant property to have parking spaces for the new arena.

Property taxes are already too high. Council needs to start dramatically decreasing costs, starting with decreasing the number of employees and high paid managers working for the municipality. Gsp's costs are also way too much of the overall budget.

Public health care for all people, ages and disabilities.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Update policy on francophone services in community. Children, adults and seniors should have access to programs in French, lead by Francophones and organized by francophones. There are a lot of management roles and decision makers in the city that are not francophone. Also, city staff are simply not reflective of the make up of the community. There needs to be people working for the city that represent more diverse cultures, languages, genders, abilities and so forth.

Opioids

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The opioid crisis is wildly out of control and requires more attention from the city. Homelessness is also an issue and while people like to blame greedy landlords, I blame the city for selling off subsidized housing properties to enable greedy landlords. Create more subsidized housing so that families who need help can have a place to live and be able to eat. As a teacher I see too many students coming to school hungry and without proper winter clothing who will sometimes get their only meal at school. These students are going without because their (often single) parents have to worry about how they will keep a roof over their head and don't have enough money left for other things. Students should not have to worry about where their next meal comes from and be taking on the burden of possible eviction, over getting the education they desperately want so they can do better in the future. Roads are another subject that should be brought up. Better management is needed various municipal service workplaces. The roads department does a half job repairing potholes and they are often back within a week, I have heard that some busy streets will get done last because workers do not want to create a difficult traffic control plan and often the just throw cold mix down to appease the complaints when the road sections could use a full tear up and patch or resurface.

Private companies pay better than city so we can't get good people to apply for openings. Some of our talent is Leaving for private companies and many more are considering leaving and/or early retirement. Senior qualified try to pick up the work. Standards have been lowered to higher substandard candidates as they fail tests. Sadly.

High water and property tax fees

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Property taxes are crazy as a resident of the outskirts it is not fair to have to pay property taxes at the same rate as community members within the city limits but they have endless services and we go without. The further out of the city you get the worse The roads get, public transit doesn't run to the outskirts there's are barely the routes compared to in town. The rising cost of water and waste makes it almost impossible to keep up with the cost of living, Sudbury's property taxes are comparative to the city of Windsor but we are not a hub of auto industry nor are we a border city, we don't have multiple casinos, Sudbury needs to stop using the comparison and set rates at an acceptable rate to keep people here and wanting people to come here. I have spoken to many people that end up moving out of Sudbury because it's cheaper to live and property taxes are not nearly the rates sudbury charges an water is flat fee not metered, which doesn't matter because if a leak does happen or there's an issue there's no assistance you can only ask for a reduction once, which isn't fair to a homeowner that's been in a home for 20 years if they needs a reduction they should be heard. Where are the funds going where is the transparency is where Sudbury is spending their money? This just is the tip of the iceberg look at the white crosses and homelessness issues, look at the lack of housing and the number of people renting that just don't bother paying.

For a long time Sudbury hasn't invested in recreation facilities, housing, transportation, or mental health services and it shows. Our downtown is a disaster, no one wants to come visit or stay in Sudbury. As a resident who works downtown im ashamed of how far we've let this city go. I hope that this new council can make a difference and help our city change to attract and retain people.

Attracting industries that are going to other municipalities due to the development charges and close mindedness of council and management at town hall

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

High developmental fees for private residences should be lowered to encourage building which would increase the tax base. Private residences deserve the same treatment as developers. Lower fees for developers should be also be given to private individuals. The city includes the outlying areas not just downtown. Infrastructure, such as improvements to sewer stations to allow building and development should be addressed in Ward 2. Several properties cannot be developed to increase the tax base until these improvements are made. Not all of our tax dollars should be spent downtown.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The City Centre is atrocious. I was born and raised in the city and was never afraid to go downtown even as a young child. Presently I will not venture alone downtown in the daytime and you would not catch me for any reason downtown during the night. I always wonder what happened to my beautiful downtown Sudbury. Some addiction services, mental health services were all bunched up in the same area to the detriment of our City Centre. I know these services are important but why all in the same area. I tell you it is scary. So much to do but fix the roads. Change the stipulation that property owners must sell 5 acres. People want to build but five acres is too much, especially when it comes to maintenance. Too much red tape with the Greater City of Sudbury.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

We need to become development friendly and encourage business and housing. We have a well-deserved reputation and treating potential businesses and builders with a maze of bureaucracy, complex regulations, an uncooperative building controls department and a lack of interest in those who would help grow the city. The city has gone through so many, many planning and vision exercises, drawing on many experts, staff and members of the general public. Despite developing some important plans and documents, these studies generally seem to get shelved and little if any action arises from the hard work invested into the plans.

Besides this being a horribly designed survey, the issue of homelessness and addiction needs to be addressed. Safe injection sites and community outreach are required. More immediate short term shelters are required. Intermediate housing so those without a permanent home can have a place to get established and receive proper social assistance. Finally we need more affordable housing so that those making a minimum wage can still afford to have a home to call their own. Public transit and bike infrastructure in this city are a dismal joke.

It was mentioned above but adequately addressing the overdose epidemic and housing crises in the city with a humanitarian lens. I was ashamed that our city "evicted" the people from memorial park. We need to spend less \$ on casino projects and address this crises. We also need to invest in better and more available and affordable public supports.

Have a balance, that all the none essentials are eliminated like community slush fund before taxes can go up. If a department is asking for more money than they have to show they have become more efficient with the money they had. The prove the need for the increase. A full outside investigation into water management of this city is needed. It is insane the cost we are paying.

As the cost of living rises, use of libraries and parks will also rise - continuing to invest in them is the purpose of public services that residents, especially of low income, are investments they see and experience for themselves. Making it easier to build new, specifically incentivising new low income housing units would also be beneficial. Housing availability should be plentiful, not scarce and therefore unaffordable. Landlords should have to bend over backwards to try and keep good paying tenants, while having recourse to remove problematic ones. End homelessness, and you'll find that many people's issues will be easier to solve, be it mental or physical health, financial, or social. Overall, investments in affordable housing and ending homelessness by housing everyone eases much strain on emergency and social services, and is cost effective. Model this after Finland.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Our city needs more daycares. To have to register your unborn child for daycare and still have to wait over a year for an available spot is ridiculous! We also need to promote Early Childhood Education as a career in our city as there are centres that cannot accept infants as they have no workers to run the infant program in their centres (when parents are trying to get back to work and need the help the most). We also need more police officers in the outlying areas of the city. The issues with drugs, mental health and social disorder keep our officers busy in the city's core and take away from the number of officers available in the outlying areas.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Council needs to talk and work with the workers of the city rather than tell them what they want done. The workers have many years experience in the fields but yet the voices are not heard and ideas are lost. Working with the front line workers could see money spent in different ways to be more efficient rather than wasted. Something as in buying a certain piece of equipment yes it might be a bit of money up front but the savings the city would make up over the years would definitely pay for it and then some

10. Social issues (e.g. poverty, social services, childcare)
11. Housing/accommodations

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The reason transportation isn't important in city is because every bus goes downtown and nobody feels safe going downtown. I think all the drug addict services need to be moved out of downtown for it to be revived.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Mental illness and drug issues surrounding our downtown core is preventing the concentrated growth required in the core of our city. Let us grow and flourish by creating a strong core rather than being spread out through the city in isolated areas.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Allow Sudbury to be an affordable and great place to live, work, visit and enjoy. If all of these are achieved, our economy will flourish as it will stay local and come from outside city limits and people come to visit, enjoy and possibly even relocate to this city. Tax revenues should be viewed as increased volume rather than increasing tax on those who are currently here.

Lack of support staff and reasonable wages for people supporting the most vulnerable population in our city

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

If you pay and fund supporting agencies appropriately, and create accessible housing for our most vulnerable population, you are reinvigorating the downtown core and moving towards a better city for everyone as everyone deserves to have a home and that should be the city's main priority. Which means better transit, better urban planning, better funded homeless and warming shelters.

The city should be letting residents know when their streets will be under road work. Even when done by contractors. Contractors dug huge holes blocking our cars in our driveways for days. When i contacted the city councillor [REDACTED] he said it wasnt his problem. Communication from the city to its residents should be top priority on any project.

Reducing Salaries at Tom Davies Square...too large a portion of the Annual Budget goes to Salaries/benefits/pensions. Police Budget is also far too high, for the net results. They do not do enough work to justify such a lion's share. Investing in mega projects to flip this city in the right direction, asap...costs will only keep rising. Build the Sudbury of 2083 today..it is part of the equation to attract and retain the right kinds of population needed to pay the property taxes required to sustain a region-city like Sudbury...with the goal of doubling the population of each town and the olde city. Greater Sudbury Pop: 330, 000 Affordable housing units. Sudbury requires 3000 affordable housing units..yesterday. Stop allowing Monopolists to continue to renovict Citizens into homelessness and moving away from here.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

A reputation for transparency will follow if these concerns are taken seriously. If this city becomes accessible to everyone, not just people with a car, the cost-of living may be reduced, in a way that allows residents to not spend \$400+ per month on transportation expenses. Build bike lanes and invest in public transportation. Further, by focusing more on the idea of poverty, focus more on combating addiction and mental health for residents in poverty. This is the real issue for many struggling in our community.

Instead of putting our tax money toward another useless downtown project, Junction East, which needs to be cancelled, build the KED instead!! At least the KED will provide jobs and increase income for the city 100 fold compared to anything built downtown.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Get the KED back on track! The former council should have never cancelled it after all the effort and money put into fighting the idiots who opposed it. You let the idiots win even after beating them at every single road block they put up. Get a backbone and get the KED built NOW!!

9. Access to recreation facilities
10. Property taxes
11. Economy/Jobs/Economic issues

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Experts (paid my my tax dollars) have made it clear that the arena should go downtown throughout the ENTIRE PROCESS. I do not want a SINGLE PENNY of my tax dollars going forward to have MORE assessments, surveys, etc. Follow what ALL MAJOR CITIES have agreed is the best economic route and put the arena downtown and STOP WASTING TAX DOLLARS on this debate.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The city needs to reduce spending on policing. The focus needs to be on mental health/addictions support. Training police to interact with people in heavy addiction or having mental health crises is a step but overall less money needs to be going to policing and community relations with police. Take money from them and put it into other social services.

The homeless are at every corner, down town used to be great. now its dangerous to even drive through. Addicts falling into intersections, being harassed when trying to go to service Ontario. Sudbury is no longer a safe city. I feel for the homeless population, they need support, but i also dont want to be dodging needles, and high individual.

This council needs to do better we the people are not an infinity credit card with no limit to jack up taxes every time someone sneezes. Things increase but you as council should take responsibility if it's a loss year no one gets raises.. if the budget is behind no one gets raises. Do what Pierre's government wants to do dollar for dollar accountability spending. You are elected by the people don't just take your pay check and spend because it looks good. You'll have to say no and it will look bad but have integrity. To grow is to spend but ideally if you spend properly the new revenue streams off set the borrow and the tax increases.. just remember we are not credit cards we don't have infinite money and if you push us too far it won't be pretty..

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

So many issues facing the city are related to housing security and affordability. Increasing the funds allocated to sudbury housing would surely be more important and a better use of limited resources versus giving the same money to private corporations who use "Profit Over People" as a modus operandi

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Housing on every level is critical! But for the aging population, as boomers need options to move into retirement living options, that are reasonable and don't leave them in poverty, the city needs to find/create partnerships for things like condos and rentals, independent living complexes and communities. Perhaps look at Finlandia that allows ownership into transitional living and care, as a potential model. This in turn will free homes and apartments for other generations. We, the human aging "infrastructure" put pressure on all other areas without a sound plan.

Spending more time and money fixing smaller problems makes a big difference in fixing bigger problems. le homelessne and the fact the city funded shelter at 200 larch charges \$20 a night for some that's on the street to stay there. That's \$600 a month is they stay every night. So that makes them have to steel and break into people cars and homes. Driving yup the crime in the city.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

We wasted so much tax money on calling in so called experts on what this city can afford or not when the citizens already could tell you we couldn't afford. Cut the waste at city hall first. Cut the stupidity like city workers watering plants in the rain

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Use common sense and don't be a [REDACTED]. We have all had enough of that stupidity. Stop raising our taxes to the point we can't afford our homes

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I think there should be more time/effort focused on by-law and building services when it comes to enforcing the law on derelict buildings/vehicles and unkept yards/properties. The city seems to take a reactionary approach (citizen notifications for thr most part) rather than a proactive approach (addressing blatant offenders on their own accord). If the city was more astute in keeping these properties in check before they end up becoming a massive eyesore and/or safety issue, it would likely cost less to address in the long run and make our city more inviting to come to and live in.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Sudbury is sprawling out too much. Cutting into our beautiful forests and natural areas. This is what makes great. Let's not pave over everything for a new set of houses. Build in already developed areas instead of clear cutting.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Stop urban sprawl. Protect our green space. It's what makes Sudbury great.

All homeless support and help needs to be moved OUT of the downtown core to revitalize it. The current support systems are designed to draw in more homeless and addicts and only worsens the problem. This needs to be completely moved as a whole to the outskirts of town. Shelters, soup kitchen, safe injection site, methadone clinic, etc.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The city should be letting private investors build new facilities (new arena). I'm not sure why the city doesn't just sit back and collect taxes from these projects and let the private sector fork out money to build new facilities? The prices of renting ice time in the city is getting ridiculous. If new private facilities are build, and prices are reasonable, maybe you'd have more people getting engaged in recreational activity and living a healthier life. Let's get out of downtown as well. I'd rather drive an extra 15 minutes further than to deal with the mess downtown.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

255 characters is not enough. This city has failed its citizens on a fundamental level in every way, start with housing

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

You cannot expect more people to want to move here, when you don't have any infrastructure for those who already live here. Work on supporting those people who are here, not growing the cities population

Q6. If you have further information to share with the Mayor and Council as they prepare the 2023 Budget, please attach a pdf here.	not answered

Our taxes are the highest in Ontario. Get them down and we will grow, companies will come and jobs will happen. Everything else will fall into place!

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Get these taxes under control!!! Wasting money on outdoor parks while people can't afford to live is insane!! Did you know our Rec departments enjoy federal and provincial holidays, while tax payers don't? Out bang for our buck is not here. Businesses pay huge tax that gets downloaded to the consumers. They don't even get services for those taxes. Let's be fiscally responsible! Our plan for addicts and homeless is insane. We need a stepping stones initiative where we give them in exchange for them bettering themselves. They need hope! The last mayor shut down a home they liked , why not investigate why they liked that over government options? If the Rex department doesn't want to work, we should put the jobs out to tender! Check out the programs at the YMCA. They cost the same and have so much more. They don't get govt funding. It's disgraceful! And stop with the covid crap!! The truth is coming out.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Skead residents pay a large amount of taxes to the city and we don't receive our monies worth. We lost our library helicopter pad and our fire station We pay for transit which I consider having because I would have to walk 7 kilometres to reach call a taxi. In the winter Pine Cone Road is the last to be plowed even the skating path on Ramsey is cleaned before our road. The city doesn't clean the road if we don't receive a certain about or cm of snow. Therefore it could snow a bit for two days and the city doesn't clean our road. The next day we get 20 cm now we can't leave and no emergency services can reach us Skead is just a cash cow for council to spend downtown Most of the residents on pine cone area are seniors we have no safe roads to walk on and the city only applies very limited sand and salt in the center of the road and only certain locations.

Q3. From your perspective, and recognizing that not everything is within City control, what are the most important issues facing the City at the present time (ranking 1 as most important)?

1. Mental Health and Addiction
2. Cost of living
3. Governance and transparency
4. Economy/Jobs/Economic issues
5. Social issues (e.g. poverty, social services, childcare)
6. Health/Public health issues
7. Environment/environmental issues/sustainability
8. Housing/accommodations
9. Infrastructure/transportation
10. Property taxes
11. Access to recreation facilities

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Everything in question 1 is extremely important, as many situations require a 360° view and issues such as social services, mental health and addictions are often tangled up together. Working towards 'solving' one social services issue won't work, if you don't address them all. I've also heard from different people that community organizations aren't working together to support one another with respect to homelessness and addictions. We need everyone to work together, to share their resources, and support the work another group is doing. Community groups like Go-Give and Bizzy Bea's popped up because the community fit not enough was being done. By working together, funding can go farther and everyone is proving the same level of support and care to our vulnerable citizens.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

CGSudbury's salaries are too high to sustain. Too many managerial positions within the City. We need less managers, less departments and less cost to run the city. We need more actual workers and less contractors doing the work of the city. Too many expensive, top-of-the-line, leased vehicles for staff in general. I see too mostly chrome laden, V8 powered, high spec pickup trucks with Sudbury city logos on them. Do our police vehicles need to be V8 powered when the OPP does it with V6 and high speed pursuits should not be undertaken within the city? Were these expensive Teslas really a smart move? We need more Paramedics and less 'exclusive' cars for managers.

These ""homeless"" people on the islands and centres of roadways are causing major issues, they jay walk up the centre lane while high, causing potential accidents for which the drivers will be charged. They are setting small fires on the islands and are driving the economy(from tourists) into the ground. Many of them are not homeless at all. If it became illegal to give them money,,,,, just food and water, they would disapate at a rapid pace. The public needs to be accountable for giving them the drug money, and taking away help from the true homeless.

Get it done properly even if it costs more roads should last putting it down and then digging it back up again not good do it once I know it doesn't come under health issues bed bugs eradicating from the city some people find it funny because it's not health issue the bugs get spread around as a homeowner and a landlord it's not funny when it's spread from a neighbor's house and there was nothing I can do apart from remove them from my property again and again at my cost as for legal action first you have to prove they have bed bugs as you are not allowed to enter somebody else's property without permission legal action is useless

We need a new arena . We need to have somewhere to go that is top of the line to have fun ,see shows, and watch hockey. This is a hockey city but no one wants to go see wolves games in the old arena. It's time for change . The KED was a good idea as it brought a few different options for our city to finally move out of the stone age . We pay enough taxes we shouldn't have failing infrastructure. You go to other smaller southern towns and they have nice infrastructure which makes the city appear more put together and makes you want to live there. This town feel like a shit hole as we dont do enough to move forward.

Council, mayor, city workers etc are paid way too much and our tax dollars are eaten up before any of the things we pay for are even covered. Plus our roads are the worst. Why isn't there a warranty built into the contracts? Roads are never actual"fixed"

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

See above. I'd like to see actual things my taxes pay for be funded rather than paying for huge salaries in a top heavy administration. Outrageous.

Mayor's Salary is way too high. How can you justify such a high salary when compared to other municipal governments in Ontario?

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Increasing taxes is not the solution to your budget shortfalls in these difficult economic times. With increasing interest rates many people will not be able to afford to keep their homes or buy a home they desperately need for their families.

It is most definitely transparency with our council and Mayor. Sudbury has been been lead by people from behind the scenes for too long.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please help our communities by being honest , true and open to your wards and this great city we all love and appreciate. There is a lot of rectifying we all must do to mend the problems from councils past . I understand it's a large task at hand but this is why you have all run for council. I believe 4 years is more then enough time to make a change for the better. Please work together with our communities and help make the city of Sudbury what it should be a great place to live . Thank you .

9. Access to recreation facilities
10. Economy/Jobs/Economic issues
11. Cost of living

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

not answered

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

When this city says we need economic development, they only see the quick dollars to grab with permit fees, construction fees, and other monies collected within the first couple of years of new developments. The city fails to weigh the long term drain on the existing city structures and services. We can barely, if at all, fully maintain what is already existing here an now. The city sacrifices the older buildings, roads and services to spread out services to newer ventures. This is totally unfair to existing citizens. I speak as a property owner.

Not enough sand to walk safely on Colonial Court section at the bottom of the "U" where there is little to no winter sunlight. The city is looking at more development but cannot properly maintain what they have.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

No one maintains a walk path from Colonial to LaSalle. Snow is piled up at the entrance. The seniors and small children along with those disabled literally need to crawl up on hands and knees. In the summer we now have 7ft thorny thistles there. I see plowing and tons of sand put down at Place Hurtubise. Why can't we have at least that thorough a sanding on Colonial CRT where there are no sidewalks. With the entire street being duplexes the residents consist of many children and seniors.

Budget transferability. The number of times I've heard the excuse "well, we can't access that money because it's not OUR budget" is insane.

Q3. From your perspective, and recognizing that not everything is within City control, what are the most important issues facing the City at the present time (ranking 1 as most important)?

1. Infrastructure/transportation
2. Health/Public health issues
3. Governance and transparency
4. Property taxes
5. Environment/environmental issues/sustainability
6. Social issues (e.g. poverty, social services, childcare)
7. Housing/accommodations

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is. Aging (see: old and crumbling) infrastructure!!

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Please think PROACTIVELY (long-term.....future) when making decisions and stop being a REACTIVE government (as in, only taking care of a problem once it becomes such a problem it can no longer be ignored which seems to be the trend in this city). So much money could be saved for future projects this way!

Q6. If you have further information to share with the Mayor and Council as they prepare the 2023 Budget, please attach a pdf here.	not answered
Q7. Which of the following best describes you?	I'm a homeowner or renter
Q8. In which Ward do you live, or own your business or property?	Ward 2

Q5. **Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.**

This Climate nonsense is ridiculous, it's a political issue, and it demonstrable false that CO2 causes climate change. Dr. Tim Ball, Phd, from the University of Winnipeg has excellent professional opinions on this, and you should take the time to listen to this man's opinion. Climate Change is being used by Marxists to justify a One World Government, which will be devastating for everyone on the planet.

Places for inmates when they come out of jail to get support right away , to help with the drug pandemic

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

This town is falling apart the last few years and from being in the shoes of a homeless person and fighting so hard to get out on top which I did achieve . I must share most people in this town are homeless or on drugs due to the fact there is no support systems realiable enough to help. I remember multiple times promised help and i fell through the cracks . I was personally lucky enough my sister is mental health and addiction worker and never gave up on me . because i would of completely fell through the cracks . But i wanna share that most people start drugs from abuse or bullying or the ■■■ happenin to them fallin through the cracks. Then when u become homeless all the shelters are full . there no free therepy out there worth getting in sudbury to help because there not enough sessions or the mental health therepy u need . you cant afford it because it cost a redicoulus amount . just normal canouling doesnt help ita just talking out how you feel . its not helpin you cope with whatever abuse you dealt with. Also you have angencys in sudbury that promise stuff and then lie about it . and then say they will help you but threaten you to do stuff after they tell u to stay away from those people and if you speak up about it they change there words and put it against you. If there was one thing that i learnt from therepy my self was what a narcistic abuser is . and its what alot of child protection workers are and I don't try to mean that offensively. Then you have victim services thats suppose to help you after abuse and they choose who they wanna help and how they help or neglect to help you and refuse you. For example instead of me loosing my kids to me being abused and not able to find support people to take me in and chose to stay at my house with my children . because i didnt want them homeless . i lost them they honestly should have moved me to a different place put me and my children in a shelter or got me protection from the abuser always breachin and breaking in. This be also a reason why so many people end up very mentally ill .All abuse plays a roll into a lot of mental health and homlessness. And the way protection services and cops choose to deal with the situation end up with alot of people giveing up on there self and thinkin that its right that abusers win . they may get in trouble but they end up winnin becauae in the end there is no protection for people getting abused till someone is severly hurt or dead . and even at that its a slap on the wrist . I think there should be better ways for women or men being abused to get protection and help and not thrown under the rocks . especially the ones with children.

Too much taxes, our city mayor doesn't need more in wages then the mayor in Toronto he gets paid way too much when our infrastructure falling apart such has our roads. The city waisting millions of dollars on the keg casino project just abandoned it

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

City needs to be more open minded for tourists attraction and just open the casino and stop waisting money. The city mayor doesn't need too make more then the city of Toronto, the cash could have went to help lower the deficits

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I understand that the financial undertaking of what I'm about to propose is extremely large but adopting a household garbage pickup such as the one they have developed in southern Ontario (ie Guelph,On) would be beneficial. The bin system works wonderfully for all households as you can request different sizes of garbage or recycling bins as needed. This would eliminate the use of a lot of plastic bags (garbage bags) and would be less restrictive on the amount of garbage per households in comparison to the current system.

I think the junction creek library project should be scrapped. We have libraries that were renovated not that long ago and are usable, why do you need to fix what is not broken. Why does the city of Sudbury have so many vehicles? Driving from Lorne St. to Paris St. using Douglas/Brady St I met four city vehicles. A truck, 2 cars and and Suv. We see city vehicles all the time including weekends. The employees use the vehicles during their shift but the vehicles should be left in the city parking lot at the end of their shift. I understand the plow drivers were training for a bit , now why do we see them driving around, no snow anywhere and the plows are down. The budget will be depleted before any major snowfall. I heard the city of Sudbury purchased two new Teslas. I am hoping this is just a rumor. Sudbury does not need Teslas such a waste of money when our city is falling apart. You need to focus on roads, maintenance and many other items. Please don't forget about the outlying communities that pay such high taxes and receive nothing as compared to the citizens that live in the city of Sudbury.

Generating revenue to cover the increased payroll expense.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I've researched the history of Sudbury back to 1883 when the railway created the Sudbury Junction. I've learned that the city once almost lost city status for being greatly in debt. Just because you can borrow and authorize yourselves to add more debt, doesn't mean you should. You're counting your chickens before they've hatched and if anything pointed that out, it was the entire KED fiasco. We the taxpayers don't want to pay the interest on loans because the rates were low. To read that our reserves are the lowest than other cities is deeply disturbing. Back in the day, there was a reason they'd say to save up for a rainy day, and there has yet to be a year with no rain. What does the new emergency preparedness plan look like, and would we be able to afford it if it happened tomorrow?

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I don't feel safe in many parts of the city. There's poverty, crime, homelessness, dangerous drugs used on major streets. There needs to be more mental health, addiction and housing. During Covid, I don't think active drug users were thinking about helping to stop the spread. Another ongoing issue is infrastructure. I was pleased to see repaving being done this year. I also enjoy accessing our community green spaces. I believe that these are important for mental well-being and stronger communities. It would be nice if local schools could have a part in maintaining native plants and caring for some native species as part of their education. One of the pros of living in Sudbury is accessing our parks and beaches. Bears love these as well and will come into town searching for trash with our less frequent trash pickups. In order to help attract tourists, it would be nice to have welcoming roadways, trees and plants as people entered Sudbury.

Revenue from the mining operations and the province

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Quite frankly i feel it is a crime for all the wealth we've mined and died for under our feet for years and we have so little to show for it. We should have had new infrastructure and decent entertainment venues 30 years ago, such as a proper 6000 seat auditorium. Our share of revenue from resource extraction has been miniscule at best and we need to change that NOW as nickel is in huge demand for batteries etc. How do you expect our city to grow without proper revenue and only receiving small philanthropy tax write offs from the mining companies. This trend is deeply disturbing and has to change. I expect this to not change because council has happily downloaded the tax burden onto homeowners just to tread water. Where are the vertebrates on council?

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

The growing homelessness and cost of living. I recognize it's largely provincial and federal but we need more access to homelessness services and affordable housing. People would rather commit suicide at this point as they are dying on the streets.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I've been working in housing and homelessness since 2015 and since Covid it's been rapidly increasing every day. I recognize this is an Ontario and Canada wide issue, but something NEEDS to be done on the municipal level to address immediate housing issues. There isn't even a men's shelter anymore and no daytime warming stations and no 24/7 shelters except Cedarplace. People are calling agencies multiple times a day asking for help with housing and saying they are in a position where they're considering suicide.

The survey scoring was not ideal in the methodology. The results would be skewed away from the positive. The mayor and council need to consider how areas are being over/under represented. Further, there needs to be a shift to a city-wide model of oversight to eliminate the two tier model of service provision

The municipal CFO should be located within the municipality to effectively operate in its best interests. The current out of province location is totally unacceptable. The inventory of City personnel should be revisited under the assumption less is more and there should be more accountability built into service and personnel performance. Transparency is paramount.

This city looks the same as it did 25 years ago. We have addiction issues because there is nothing to do in this city. Those [REDACTED] who ruined the KED should never work for the city again this city is pathetic out roads are embarrassing.. Worst in North America.. I wish I was younger so I could move somewhere else. But I'm tied down with work so here i am stuck.

Stop the junction project until we are in a more fiscal responsible position and infrastructure is adequate for all outlying communities. Better budget system than just dishing out cash, needs to be accountability and a shown need for increases for departments. Reduce staff as our levels are way to high compared to other municipalities.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Remember that every \$50 matters, and every \$100 matters - they make up thousands and tens of thousands of potential unnecessary expenditures. We need to run the city like it's our own budget... We need to 'own' it knowing there is only so much income to support expenditures, and not imerely increase taxes every year as that is getting out of control. We need to seriously consider the difference between our 'wants' and our 'needs'. Make our 'needs' the priority for the short term to help get through some tough times and serious issues in the city.

The state and condition of the roads in the City are terrible. I appreciate that it is a significant portion of the budget already, but even more needs to be done to address them. They are by far the least flashy, most important thing that Council should be focused on.

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Urban sprawl - Sudbury has a huge amount of land that it covers and the more we spread out the less affordable and efficient we are. We need to be denser and reduce urban sprawl which will go along way with taxes/budgets/affordability. Priority #1

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

In line with my urban sprawl being an issue, Council needs to invest in it in Downtown core. Junction east is a fantastic idea and opportunity to finally put some money and ambition in Downtown. A project like that shows council's intention to invest in in the City and hopefully it is the first domino to fall in what I hope is a line of private investors who would see confidence in also investing in Downtown and do likewise.

10. Governance and transparency
11. Mental Health and Addiction

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Misspending of our money resulting in too many tax increases in the outskirts. We pay way too much in the valley for the poor services we have. Taxes in Dominion park are insane and we don't have any special services to warrant that

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Be wiser with wasting money

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

The continued increase of taxes are unsustainable. The city needs to evolve and change with the world... that means services and jobs that support these services must be reviewed on a year to year basis along with the benefit plans that they have. The majority of the citizens of Greater Sudbury don't have defined benefit pensions and have to save for their own retirements. I am not against benefits, but they must align with the trends of other businesses in the community and country as a whole. The mindset should be that this is our home, we have an annual income and spending can not exceed the income we receive. Hard decisions need to be made.

Once hyw 69 is complete, growth will occur, but for now getting the basic needs like budget control is paramount. There is little advantage to out sourcing decision making companies. You have the resources to achieve common sense decisions. Remember what works in another location like south of sudbury doesn't mean it will work here. If not for the out lying areas sudbury would be a disaster. If you expect the greater sudbury area method to work you need to take care of your out lying areas they are just as important! The greater sudbury area is not like the gta Toronto is a self generating city sudbury not so!

Q4. If the most important local issue facing the City at the present time was not listed above, please tell us what it is.

Growth of our population. This will enable us to decrease our property taxes by simply having more people paying for these services

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

Have a hard look at the management level of the city and ensure we do not have redundancy simply because the people offering up solutions and helping make decisions are self serving and trying to keep their jobs. Just because it's always been done that way with those people does not mean it's the best way.

If we do not deal aggressively with the climate change issue - nothing else will matter. We won't be here. I'm also very against cutting back/moving fire stations. The distance for us in Coniston, if our station is moved increases exponentially. This would change arrival time from Wahnapiatae to Coniston by probably 15 and more than likely 20 or more minutes. I am in a spot that the water pipes are smaller than they are supposed to be. I have been told by firefighters that if there is a fire here - on our street - it would pull all the water from all the houses - emptying water tanks, toilets, etc. That is bad enough without having a longer arrival time.

Do not proceed with the proposed library and art center. Waste of money as it does not generate significant revenue.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

I'm sure we're paying interest on the money borrowed for the new arena so get busy and make a decision already and get the shovels in the ground. Do not let the process get dragged out in the courts for years. Preferably not downtown as parking is a major issue.

Q5. Please provide any additional comments you feel are important to share with the Mayor and Council as they prepare to deliberate the 2023 Budget.

There is no one crucial issue that is affecting the city. The massive increase in housing costs over the pandemic, compounded with a new transit route system that is less accessible for those who do not live in the centre of town and the cost of food, means that Sudbury is no longer an affordable place to live. On top of that, the increase in essentials means that there is less room in personal budgets for recreational activities and the ones that are running currently are sorely underfunded. It makes sense that there is a rise in crime when people cannot afford to go and be social or entertained. There isn't anywhere in this city where you can go without any expectations of spending money. Many jobs are hiring, but the wages that they are offering are not sustainable for a full and well-rounded life. People should not have to choose between keeping a roof over their heads and living their lives.

There has been talk about reducing transit services. Although I do support suspending underutilized local routes, I believe that it is important to maintain or even extend the available hours that transit runs. stopping transit early goes against our "talk" of lowering carbon footprints, increases the risks of impaired driving, and reduces employment options for those without vehicles. I personally take the bus on only rare occasions, but I used to not have a choice. I understand the plight of those who are dependent on the service. In a truly accessible and equal city, transit must be maintained.

The services that include: recreation, parks, library and transportation are necessary to enriching the lives of citizens in outlying areas of the city. Without these services families, and those with mobility issues, would not have access to information, healthy play opportunities and to community facilities. These services are crucial to the well being of our community. Here in Onaping we have amazing staff at our library and pool. These individuals strive to inspire community members; our children's lives are enriched by the care that they take in their jobs.

Bike Sudbury/Vélo Sudbury

Submission to the Greater Sudbury 2023 Budget

Thank you for the opportunity to submit comments on the 2023 municipal budget. There are two strategic priorities that are top of mind for cyclists:

- **Prioritizing strategies, policies and investments that will help us move towards CEEP goal #8: Achieve 35% active mobility transportation mode share by 2050.**
- **Community engagement on cycling projects and directions.**

Climate Change

While we watch what is happening across Canada and the world, and with the recent focus on COP27 (United Nations Climate Change Conference 2022), it is evident that dealing with climate change is urgent. Our city must move more aggressively forward on CEEP and other initiatives. Increasing the number of people who bike in Greater Sudbury **directly relates to CEEP goal #8: Achieve 35% active mobility transportation mode share by 2050**. With transportation being one of our top GHG emissions sectors, we need to invest more in active transportation, even if that means shifting dollars from other service areas.

We are proposing 4 directions in 2023:

- A minimum grid of protected bike lanes on all major roads within 5 years. In order to increase the share of people who replace car trips by bike trips, we need safe, connected, and comfortable/accessible continuous bike infrastructure across the city. That means building a “spine” or minimum grid of separated infrastructure on our major urban and rural arterials that connect all of our neighbourhoods.
- Complete a Non Motorized Trails Master Plan that identifies critical trails that are part of the City’s Active Transportation Network and the Lake Huron North Channel provincial cycling route; identifying and implementing policies to expand and maintain them; and include this plan into the next Transportation Master Plan.
- Complete the Complete Streets Guidelines and implement other clear guidelines for operating and maintaining cycling infrastructure. We currently do not have a year-round active transportation maintenance policy (only winter maintenance which indicate there is no maintenance), no multi-modal service levels for roads, no policies to deal with micro-mobility devices, and no prioritization of spring work on the infrastructure that serves our most vulnerable road users.
- Develop a strategic and holistic community “Bike Master Plan” that prioritizes increasing the modal share of cycling to reach the CEEP Goal 8; that identifies clear timelines for constructing cycling infrastructure; and that identifies how the community will implement the programs that are needed to encourage more people to bike safely and comfortably. This plan should address the 5 “E’s” of a great cycling city, that will move us to a higher level within Ontario’s Bicycle Friendly Community designations.

Community engagement

Since the sunset of the Sustainable Mobility Advisory Panel, there has been no official mechanism to gather strategic priorities from the community for active transportation, in particular as it relates to town centres, connections between communities, and the priorities of our community of communities. Community engagement is project based, is sporadic due to staffing issues, and information on the website is out of date and lacking in depth.

The City needs to implement better methods of involving the community, and addressing the issues they identify in a timely manner.

Guiding principles

Budget and operational decisions around cycling should be driven by sustainable and equitable transportation choices for all residents. Specifically, the following principles were identified during the community engagement for the province's #CycleON: Ontario's Cycling Strategy. Although this plan seems to have been abandoned by the current government, the principles driving the plan are still very relevant: climate change, safety, comfort and accessibility, continuity, connectivity, and equitability should apply to all transportation projects and active transportation decisions.

Investments should also be measured against the 5 "E"s recently adopted by the League of American Bicyclists, who dropped the "E" of enforcement and replaced it with the "E" of equitability and accessibility. The Share the Road Coalition is currently evaluating its 5 "E"s and has also dropped the enforcement category. We are anticipating updated information from STR in the near future. Bike Sudbury endorses the new 5 elements that drive great cycling cities. They are: Equity and Accessibility; Engineering; Education; Encouragement; Evaluation and Planning.

We look forward to participating in the important partnerships that have been built with the City and other local and provincial partners. Together, we can make Greater Sudbury the best cycling city in the North.

Thank you for your previous and continued support for cycling in Greater Sudbury.

Sincerely,

Rachelle Niemela

INDIGENOUS-MUNICIPAL RELATIONSHIP AGREEMENTS

A GUIDE FOR MUNICIPAL LEADERS

WHY NOW?

Municipal leaders are being looked to set the tone and be part of the constructive societal change in Indigenous Relations that is needed and expected. A question we have been hearing from members is how municipal governments leaders and staff can support the healing, learning, and restoration needed to strengthen reconciliation with Indigenous friends, neighbours, and communities.

Relationship Agreements can be helpful in creating relationships and identifying areas of mutual concern and interest. By going through the process of creating an agreement, municipalities and Indigenous communities can continue (or begin) the process of developing mutual understanding and ongoing conversations. Completing this process will better equip all those involved to engage in meaningful, respectful conversations and solutions when issues do arise.

To set the context, municipal governments are not part of the Crown under the Canadian Constitution —the Federal and Provincial governments are. As such, municipal governments are not able to address outstanding rights and claim issues, but we are able to be better neighbours and partners with Indigenous friends and communities.

SEPARATE PROCESS FROM DUTY TO CONSULT

It is important to note that Relationship Agreements are outside of and apart from the formal Duty to Consult process. While municipal governments may have a role to play in discharging procedural aspects of the Crown's Duty to Consult, they do not have an independent Duty to Consult. Municipalities are not the Crown.

They do not have the constitutional authority to address the range of issues arising from Aboriginal and Treaty rights. Municipal governments are subject to many provincial approval processes and do not have access to critically relevant information on Crown-Indigenous relations. Moreover, a lack of knowledge, capacity, and financial resources to fulfill the Duty also prevent municipal governments from independently assuming responsibility for discharging this Crown responsibility.

AMO RESOURCES

At the August 14th Board Meeting, the AMO Board of Directors approved two resource papers to assist municipal councils' efforts to support Truth and Reconciliation. It may be helpful to review those resource papers prior to reviewing this document. The first resource paper provides an overview of the Truth and Reconciliation Commission's (TRC's) Calls to Action that municipal governments can address themselves. These calls to action can help municipal governments focus their reconciliation efforts on areas within their sphere of influence.

The second resource paper provides ideas and options for what municipal leaders and councils can do to better support and engage Indigenous residents and neighbours at this time. It recommended that municipal governments:

1. Start By Listening
2. Educate Yourself
3. Speak Up Thoughtfully
4. Call For Action
5. Create A Declaration of Mutual Commitment and Friendship
6. Create Urban Indigenous-municipal advisory committee
- 7. Create Or Renew Relationship Agreements**
8. Support Indigenous Colleagues and Staff
9. Attend Memorial Events or Ceremonies.

While the recommended actions above do not appear in a linear, “first this, then that,” sequence, it is recommended that municipalities begin by listening and educating themselves, and that this process of learning and conversation is ongoing and prioritized.

The purpose of this guide specifically is to support municipalities in recommendation #7, Create Or Renew Relationship Agreements.

WHERE TO START?

It is important that municipal governments take the time to move thoughtfully through recommendations #1 to #4 prior to turning their focus to #5, #6 and #7. Listening, educating yourself, speaking up thoughtfully and calling for action will be ongoing practices that all municipal governments should embrace as a matter of the journey towards truth and reconciliation.

Substantive and functional relationship agreements will only be possible after municipal governments take the time to learn about local and national indigenous stories, histories, and perspectives on how best to move forward. While it is not possible to know everything about the other community, just as it may not be possible to know everything about one’s own community, initiating a dialogue between the two communities ensures that when a question comes up there is already a culture of positive and regular communication in place.

Recommendation #3, “Speak Up Thoughtfully,” suggests that municipal governments consider carefully what their informed contribution will be to the public discussion in support of Indigenous peoples. A sincere and heartfelt statement may take some time to develop and should be followed by an action plan or strategy.

Options for such an action plan include creating or renewing relationship agreements, attending memorial events or ceremonies, creating advisory committees, and more. The declaration of mutual commitment and friendship with the local Friendship Centre and the creation of an Indigenous-municipal advisory committee could be initiatives on their own. Such declarations could also be woven into a relationship agreement between a municipal government and Indigenous community.

CREATING OR RENEWING A RELATIONSHIP AGREEMENT

The goal of a relationship agreement is to establish a long-term relationship of practical cooperation and commitment that respects the Indigenous community's jurisdiction. The agreement must also recognize the need for ongoing compatibility, coordination, and understanding between the parties.

Many municipal governments have formal or informal inter-government agreements with Indigenous communities that cover how they will work together on areas of mutual interest such as economic recovery, tourism, land use planning, and environmental issues. Many more do not or have outdated agreements that do not reflect the current reality of the municipal-Indigenous relationship. These informal agreements are different from service agreements on items such as fire protection services, animal services, solid waste, or water/sewer provision. These formal service agreements often have legal and financial implications. Frameworks for such agreements are available through the Federation of Canadian Municipalities (FCM).

It is important to remember that municipalities do not have the same legal relationship with Indigenous communities as the provincial and federal governments. However, the ways in which these voluntary government-to-government relationships are formed, differences are understood, and relationships can be established are meaningful pathways toward reconciliation in these agreements. Relationship agreements can create a platform for legitimate, meaningful collaboration without altering existing structures in Canada. They represent an opportunity to foster genuine collaboration and achieve shared logistical, cultural, social, and economic benefits.

A relationship agreement should be a living document that represents a constantly evolving relationship. As such, it should change and adapt as the connection matures, and as the municipality and Indigenous community identify needs and priorities.

Establishing a relationship agreement

Establishing and maintaining respectful relationships is a basic principle of good municipal governance. By respecting each other's perspectives and developing relationships, municipalities and Indigenous communities can build trust, address challenging issues and new opportunities and act collaboratively to achieve social and economic well-being for all residents.

In addition to the recommendations outlined above and in the AMO paper, "What Municipal Leaders Can Do To Better Support Indigenous Residents And Neighbours At This Time" the following steps could be considered in the journey to creating a meaningful relationship agreement:

1. Identify treaty and non-treaty Indigenous communities that live in, or adjacent to, the municipality

Each of these communities is distinct and unique. If more than one Indigenous community is identified, there should be a separate relationship agreement with each. Through communication with the community, it will become clear who speaks on behalf of the community (elders, elected leaders, community leaders).

Discuss with community leaders what communication methods are appropriate, and ensure that all engagement is led by, or endorsed by, the Indigenous community.

This step may occur as part of the municipality's work towards recommendations #1 (Start By Listening) and #2 (Educate Yourself). It is important to take the time to understand the challenges, opportunities, and history of the Indigenous community.

2. Identify any needs for formal service agreements

Any formal service agreements should be captured in separate service agreements. These agreements should not form part of the relationship agreement, although they may be referenced within the relationship agreement. These should form separate agreements.

3. Identify areas of mutual concern and interest, and discuss the desired level of involvement/consultation that both parties are seeking and willing to undertake.

Areas of mutual interest could include:

- Childcare
- Community events
- Community Safety and Well-being
- Connectivity
- Economic Development
- Energy
- Housing
- Infrastructure Projects
- Planning and Development
- Public Health
- Sustainability
- Youth engagement

It is important to carefully consider each area of mutual interest and take the time to discuss each parties' role and priorities in the area. Will the relationship agreement provide broad goals, with specific details outlined in a separate document, or will the relationship agreement be more detailed in nature?

4. Commit to the process of creating a relationship agreement through a Resolution of Council

Recommendation #3 (Speak Up Thoughtfully) suggests that municipalities take the time to draft a sincere and heartfelt statement about their role in Truth and Reconciliation and their approach for moving forward. This may take some time to develop, but this is an important step in signaling to the municipality and Indigenous community that the municipality is sincere in their actions. This could be followed by a municipal Truth and Reconciliation implementation strategy, a part of which could be a relationship agreement.

5. Community engagement

Through direct, regular, and thoughtful communication, a steering committee could be established that includes members from both parties. The steering committee should engage the Indigenous community and all residents in the process of establishing a relationship agreement. It is important to acknowledge that the process must be collaborative and led by both parties. The relationship agreement is only meaningful if the process to create it embraces the Indigenous community as an equal partner.

It is important to integrate cultural knowledge into the processes of local government collaboration. Not doing so could be a significant barrier to substantive implementation. The need for increased cultural awareness is a reminder of preliminary work that should be done in Indigenous-municipal relationships to better foster meaningful interactions throughout the implementation of initiatives such as the relationship agreement.

6. Identify actions to be taken

Actions could include:

- Establishing working groups that will regularly meet to explore and initiate activities designed to facilitate economic diversification, protect cultural and heritage resources, and promote community growth and well-being.
- Creating a plan to identify and implement ways to make municipal spaces and buildings welcoming and safe for Indigenous Peoples while ensuring that they can see themselves reflected in the municipal spaces and places.
- Designing a framework to support all municipal staff to build relationships that honour the agreement's key tenets and build relationships with Indigenous Peoples to increase staff's knowledge of Indigenous cultures, traditions, and worldviews through education and learning opportunities.

7. Formalize a relationship agreement

The relationship agreement should be drafted by both parties, and should at a minimum:

- Identify the municipality and indigenous community covered by the agreement and identify who can speak on behalf of each party.
- Identify the general spirit of collaboration and communication, as agreed to through the consultation and engagement process.
- Identify how communication will occur between both parties:
 - Formal Communication (i.e., annual joint statements, regular formal meetings, community engagement opportunities, is a communication plan warranted?)
 - Advisory Committee (will an advisory committee be formed? If so, the terms of reference could be included as an appendix to the relationship agreement).
 - Informal Communication (will there be regular informal communication between the parties? What might this look like?)
- Identify the areas of mutual interest.

- Identify an action and implementation plan for any specific actions identified from the areas of mutual interest (this may look like an appendix that can be updated regularly; if there are financial implications, how will budgets be considered, approved?)
- Identify how decisions will be made (through consensus? Through a different decision-making lens?)
- Identify how often and under what circumstances the relationship agreement will be reviewed and amended if necessary (while this should be a possibility at any time, timelines for regular, formal review should be considered to ensure that the Relationship Agreement remains relevant. This could include within a year of new leadership for either party, and/or on an annual basis).

See *Appendix 1: Sample By-Law Preamble Inclusions* for suggestions on what to include in the relationship agreement preamble.

8. Solicit feedback on the draft agreement

Feedback on the draft relationship agreement should occur through community and stakeholder engagement. A meaningful process should be prioritized over a quick process, and feedback should be considered and incorporated as agreed to by all parties. Feedback can and should be sought throughout the process as part of recommendations #1 (Start by Listening) and #2 (Educate Yourself).

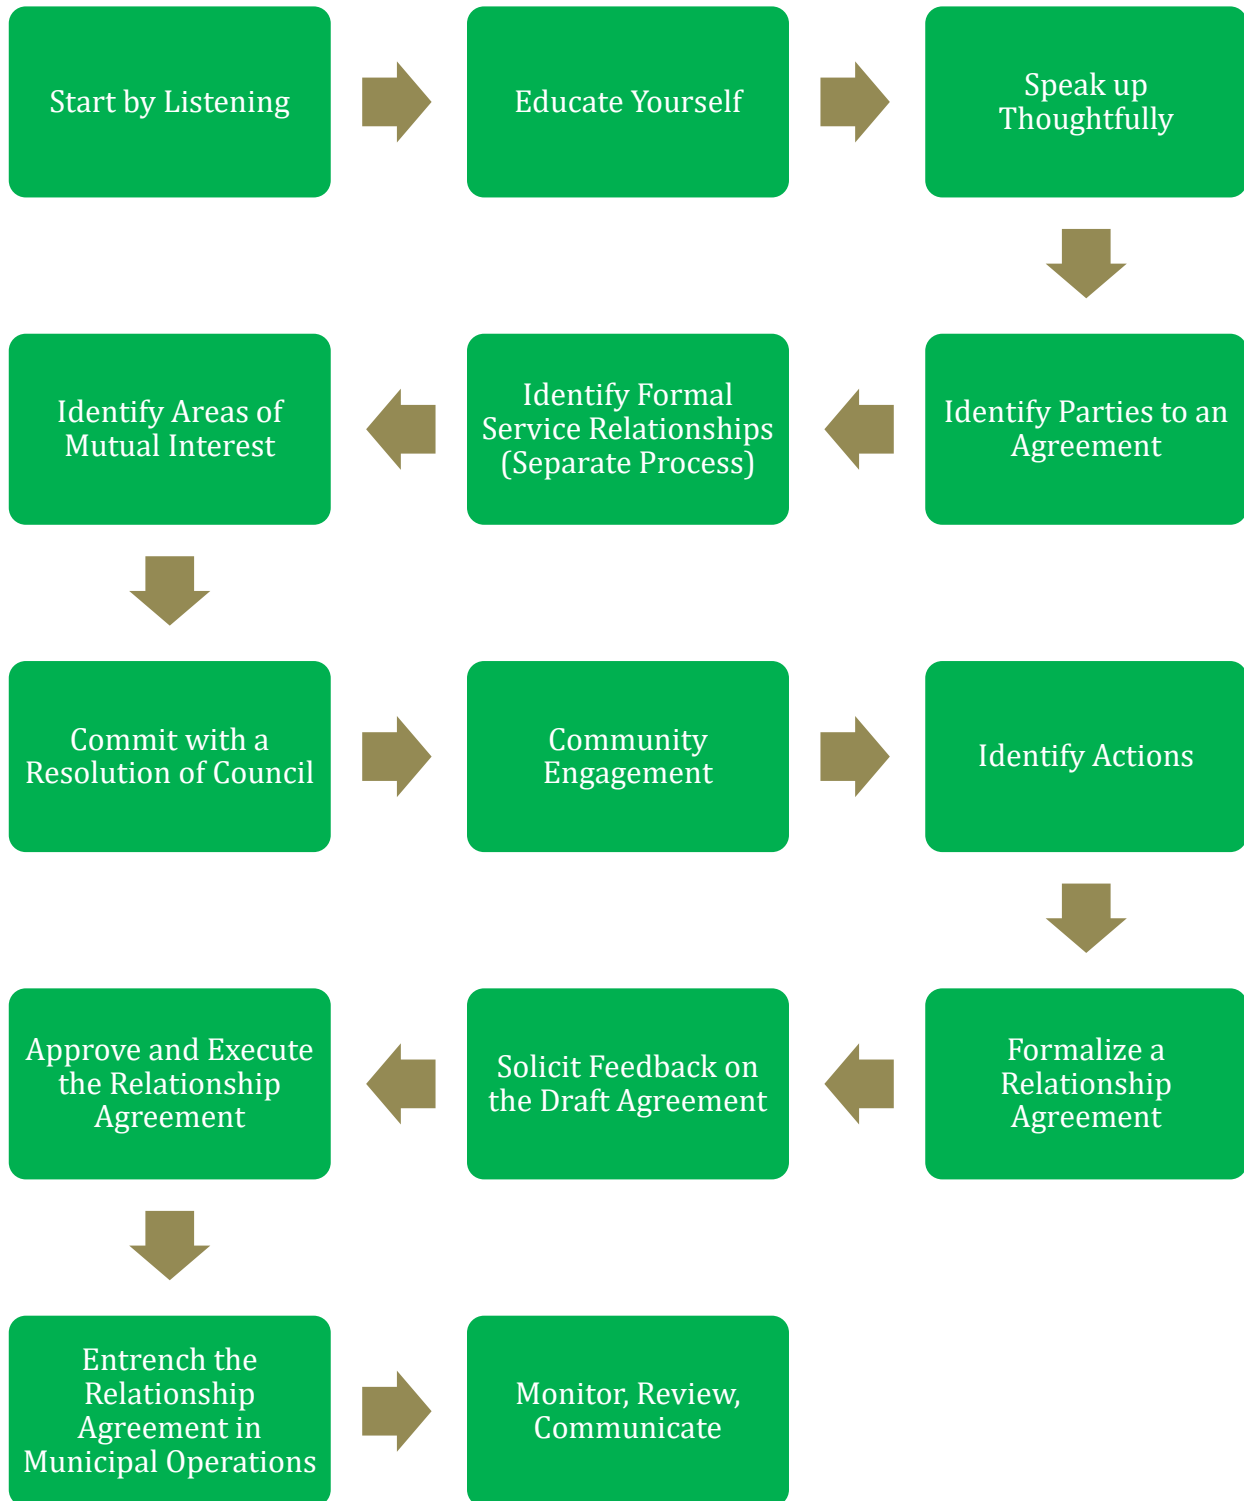

9. Approve the relationship agreement

Both parties should indicate satisfaction with the draft relationship agreement before it is executed by the municipal council and Indigenous community (see *Appendix 2: Sample Resolution of Council to Enter into Relationship Agreement*).

10. Entrench the relationship agreement in municipal operations

All municipal staff, elected officials, and volunteers should be aware of the relationship agreement and should understand their role in ensuring it is meaningful and followed. Regular training and reminders to municipal stakeholders about the relationship agreement, the Truth and Reconciliation journey and the history of Indigenous communities locally and nationally are important, so staff leaders and elected officials should ensure that they lead by example by ensuring the tenants of the relationship agreement are adhered to.

A brief statement on the intent of the relationship agreement should be drafted by both parties.

PARTIES INVOLVED

Who is involved in building the relationship agreement and who are the signatories?

MANDATE OF PARTIES

A brief overview of the individual mandates of the parties involved.

COLLABORATION

A statement on collaboration could be included. Sample wording could be:

The Parties hereto acknowledge and agree that they shall collaborate with each other to achieve the objectives of this Relationship Agreement. The Parties further agree that they shall act in good faith in performing their respective activities and shall act according to the principles of friendly consultation and discussion, equality, and mutual benefit, to ensure that their co-operation can be realized on a mutually agreeable basis.

BINDING EFFECT

The relationship agreement should not be expected to legally bind either party. Anything requiring legal authority should be captured in a formal service agreement. Sample wording could be:

No Party has the power of authority to legally bind any other Party and nothing herein contained shall be construed as authorizing any Party to act as an agent or representative of any other Party.

Nothing in this Relationship Agreement shall be construed to create or constitute a legally binding obligation of the Parties.

TERM OF THE AGREEMENT

As part of the building the agreement, the parties should consider the term of the agreement and how it will be reviewed and amended. Sample wording could be:

This agreement shall remain in full force and effect for a term of [insert term length] with automatic renewal for a subsequent term unless a request for amendment is received in writing from one party to the other. Annually, the parties will consider whether there is a need to amend any of the terms of this agreement.

Appendix 2: Sample Resolution of Council to Enter Into Relationship Agreement

1. PURPOSE/SCOPE

The City of Greater Sudbury is committed to evolving business practices and increasing work/life balance by supporting Employees who request to work remotely, whether in a home office or alternate CGS work location. The Work From Home Program allows an Employee to fulfil their regular job responsibilities from home, in an environment that is as productive as it is within a CGS work location.

Providing a program that Employees can participate in, when appropriate, supports the wellness of our Employees, and our Community in a way that is environmentally sustainable. It embraces the notion of a digital environment and the modern Employee experience.

This policy is applicable when the Employer deems that a position is eligible to work from home and the employee in the position applies and is approved to participate in the program. The policy parameters may also be activated in the event of an identified emergency or under circumstances where the Executive Leadership member in jurisdiction deems it required.

The purpose of this policy is to outline the guidelines and procedures for Supervisors deeming positions eligible to work from home and Employees requesting to participate in the Program.

This policy applies to all Employees who are participating in the program or request to participate in the program.

2. DEFINITIONS

CGS reporting location: refers to the CGS designated reporting location as identified on the job description (i.e. Tom Davies Square, St. Clair Depot, Provincial Tower).

Work from home location: refers to an Employee's primary office being located in their personal residence. The work from home location must be within the employee's primary residence in the Province of Ontario, Canada.

Working remotely: refers to an Employee working somewhere other than the CGS reporting work location as identified on the job description. Employees may be directed by their

Supervisor to attend an on-site City work location, in person, and on short notice. Therefore, employees must remain flexible and available to accommodate this requirement.

3. RESPONSIBILITIES

Employee Responsibilities

- Submits the Work From Home Request Form to their Supervisor, if their position is deemed eligible to work from home.
- Complies with all policy, ergonomic and H&S requirements outlined in this policy and the H&S checklist.
- Ensures all equipment, software, and hardware are maintained and used properly.
- Arranges and pay for fees, installation, maintenance, and support of available high-speed internet services at their remote work location.
- If an employee changes residences, they must resubmit the Work Form Home Health and Safety Checklist and ergonomic pictures.
- Completes the “Working From Home Series” training.

Supervisor Responsibilities

- Reviews all positions to identify which are eligible and which are not eligible to participate in the Work From Home program.
- Communicates with employees whether or not their position is eligible to work from home or not and provides context as to why a position is deemed not eligible.
- Reviews and considers requests to participate in the Work From Home program, from employees in eligible positions, in conjunction with the Manager once removed (MOR) and Human Resources, if required.
- Establishes a method of communication between the Employee, the team, and the Supervisor.
- Prepares the Employee to work remotely and the team to enable the colleague(s) to work remotely and to maintain team cohesiveness.
- Identifies communication expectations with the Employee and schedules regular check-in meetings.
- Establishes clear, performance-related objectives.
- Ensures that Employees have appropriate resources, including technology, hardware and applications required to support working from home, in line with the IT guidelines.
- Evaluates the on-going suitability of the Work From Home agreement on a regular basis.

Human Resources Responsibilities:

- When requested, supports the Supervisor and MOR, to review the Employee portion of the Work From Home Program Request and supports the decision making process.
- Reviews and approves or denies the intended work area using the completed Work From Home Health and Safety Inspection Checklist and photos.
- Ensures the Work From Home Request is completed in its entirety and the Work From Home Agreement is signed.
- Upon approval, ensures Employee is enrolled in the appropriate LMS learning modules

4. PROCEDURE

It is important to recognize that not all jobs can effectively be performed from a home office. It is also important for all staff to appreciate that working from home is subject to approval and ongoing review,

and will be based on the eligibility criteria.

An Employee may be eligible to work from home if:

- Their position has been deemed eligible to participate in the program.
- Their duties can be executed equally as effectively and productively as would be executed while working from their CGS reporting location.
- Enables operational effectiveness, fiscal responsibility, and accountability.
- The Employee has proven to be effective working independently.
- Tools and equipment can be provided to meet the requirements of the work.
- Has been granted approval by the organization.

Employees can request to work from home on a full-time or part-time basis.

The Supervisor has the discretion to withdraw the Work From Home Agreement if the arrangement proves unsatisfactory, or the conditions change such that the work can no longer be effectively executed while working from home.

While working from home, Employees must adhere to all the conditions in the Employee Handbook. All CGS policies around conduct, confidentiality, sick leave, etc., continue to apply, regardless of location.

4.1. Position Eligibility

The eligibility process has three steps:

- 4.1.1. Position is assessed to determine the effectiveness of this position to work remotely and is communicated to Employee;
- 4.1.2. Employee requests participation in the Work From Home Program;
- 4.1.3. Employee suitability is assessed and the outcome is communicated to the Employee;

Note: This program and any/all of its participants can, at the discretion of the Supervisor, be recalled to the CGS reporting location.

4.1.1 Position is assessed to determine the effectiveness of this position to work remotely and is communicated to Employee.

Manager completes the Position Eligibility Questionnaire that addresses the duties of the position and whether they can be effectively executed from home.

4.1.2 Employee requests participation in the Work From Home Program.

Employee completes the Employee Section of the Work From Home Request Form.

4.1.3 Employee suitability is assessed and the outcome is communicated to the Employee.

Manager completes the Supervisor/Manager Section of the Work From Home Request Form. This portion of the form requires an assessment of the Employee's suitability to participate in the Work

From Home program.

The Supervisor, considering all requirements and factors, and in conjunction with the MOR and Human Resources (when requested), approves or denies the request to participate in the Work From Home Program, and returns the completed Work From Home Program Request Form to the Employee with a copy to workfromhome@greatersudbury.ca.

4.2 STANDARD BUSINESS HOURS

To ensure employees are accessible and available for a certain number of hours during normal business hours, standard hours for employees to work (unless otherwise outlined by an alternate shift schedule) are from 09:00 to 15:00. This requires that all Employee start their workday by 09:00, and not complete their workday prior to 15:00. The balance of their workday can be determined with the Supervisor for non-union staff or as per CBA provisions for unionized staff.

4.3 COSTS

Costs associated with working from home will be covered by the Employee, including but not limited to:

- Parking costs when at a CGS work locations
- Travel to a CGS work location required throughout the day, that would otherwise not be included in the Travel and Business Expense Policy
- Installation/connection and all associated internet fees (minimum standard required)
- Any increase in home insurance, if applicable
- All office equipment associated with creating a safe, appropriate, and ergonomically correct workspace and work environment
- Utility costs for home office
- Maintenance and repair of privately owned equipment
- Expenses for supplies that are regularly available at a CGS work location.

Any employee working from home as a result of the Employer mandating it can submit a *Request for T2200 Form* (J:\S_Forms\Payroll) each year to receive a T2200 Declaration of Conditions of Employment Form from Payroll. This may allow tax deductions resulting from having a home office if Canada Revenue Agency requirements are met.

Note: The process of claiming for tax deductions can be found on CityLinks in the Workplace Notice section.

Any employee who applies to the Work from Home Program is not eligible to request a T2200, as CRA has designated that the Employer must require the position to be worked from home rather than an Employee volunteering to work from home.

4.4 EQUIPMENT

- 4.4.1** City of Greater Sudbury will provide the equipment outlined in the IT WFH Technology Guideline, if required for job functionality, for Employees approved for a home office. The guide can be found on CityLinks, in the Manager's section of the HR page/Work From Home Program.

4.4.2 The Employee will provide:

- High-speed internet connection, with data port at the workstation
- Internet router (if required)
- Desk that meets minimum dimensions and requirements
- Chair that is suitable from an ergonomic perspective
- A dedicated and appropriately defined workplace in which business will be conducted to ensure privacy and confidentiality

4.5 SECURITY AND CONFIDENTIALITY

- 4.5.1** Employees are responsible for taking the necessary precautions to secure and protect CGS property, documents and the confidentiality of information at the home location (i.e. ensuring family members, any individuals living in the home office location and visitors do not have access to the information). Use of a locked space (e.g. filing cabinet with functional lock) is required for all confidential information.
- 4.5.2** Employee must adhere to the CGS Employee Handbook (which outlines the Code of Conduct and the Responsible Use of Technology), and the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA).
- 4.5.3** Employees who connect their computing devices, person or CGS-issued, to their WiFi network should take the necessary precautions to secure their home wireless network. Refer to the IT Guidelines for details.

4.6 ENDING THE WORK FROM HOME PROGRAM

- 4.6.1** If the work from home program ends for an Employee, either due to the employment contract ending or the Supervisor withdrawing approval and the Employee returns to the designated CGS home location, the Employee will be responsible for the return of all equipment provided. The Supervisor is required to manage the return of all equipment, and ensure that all equipment belonging to CGS is returned
- 4.6.2** Employees choosing to end the Work From Home Program and return to their designated CGS home location must request approval from their Supervisor at least one month in advance of their desired return date.

4.7 LEAVE OF ABSENCE

- 4.7.1** For leaves of absence extending over fourteen (14) days, all documents and equipment are to be returned to the CGS office. The Supervisor is required to manage the return of all equipment, and ensure that all equipment belonging to CGS is returned. Returned equipment will be managed by IT.
- 4.7.2** In the event of an unplanned leave, the Supervisor and Employee must establish a plan that allows the Supervisor, or other CGS representative, to access the CGS equipment and documents. Returned equipment will be managed by IT.

- 4.7.3** If the Employee is on leave for six (6) months or more, they must reapply for the Work From Home Program.

4.8 HEALTH AND SAFETY

- 4.8.1** Regardless of the work location of their Employees, the responsibilities of Supervisors regarding the health and safety still apply.
- 4.8.2** Employees are covered for work-related illnesses or injuries arising out of the course of their employment.
- 4.8.3** All incidents of injury while working from home must be reported to the immediate Supervisor as per reporting procedures.

4.9 ATTENDANCE REQUIREMENT AT CGS WORK LOCATION

Employees working from home must report to the CGS work location as operationally required (team meetings, committee meetings, training, etc.) and typically not less than two times per month.

5. TRAINING

All Employees requesting to participate in the Work From Home Program must complete the “Working From Home Series” training in LMS once approved to work from home.

All other Core H&S modules and mandatory corporate learning modules must be maintained at the outlined frequency.
