*THAT staff produce analysis that provides insights about the financial implications of the following three scenarios for the city's Fire and Paramedic Stations:*

1. *"Status Quo", where all existing stations continue receiving the current level of planned maintenance, reactive repairs and capital renewal investments according to the annual prioritization process;*
2. *"Existing footprint", where all current stations are repaired/renovated as required to fulfil expectations associated with emergency services legislation and service requirements; and,*
3. *"Changed footprint", where in accordance with the recommendations presented to Council December 13, a combination of renovations and consolidations occur to the city's Fire and Paramedic Stations;*

*And as part of the analysis, to be provided by the end of Q2 2023, staff identify significant financial and operational implications over at least the next ten years that differentiate the three scenarios, supported by professional third parties as required using existing, approved funds.*

**Title:** Request for Interactive Map of Snow Clearing Activities

**Date:** Tuesday, January 24, 2023

---

**Moved By** Councillor Lapierre

**Seconded By** Councillor McIntosh

WHEREAS the City of Greater Sudbury continues to practice openness and transparency of municipal services utilizing available technology;

AND WHEREAS Greater Sudbury staff must maintain 3600 lane kilometers as well as 350 km of sidewalks throughout the winter;

AND WHEREAS citizens of Greater Sudbury often ask questions and share concerns regarding snow clearing of City streets during and after winter events;

AND WHEREAS the current policy regarding the clearing of snow on city streets, stipulates after 8 cm of snow has fallen and continues to fall; a general call out for snow clearing includes activating all available city staff, contractors, and up to approximately 80 pieces of equipment

AND WHEREAS other municipalities across Canada have various methods and programs to provide public access to the status of winter operations and service conditions via a web-based map;

AND WHEREAS having such an open platform could assist with providing similar information for residents to understand operational activity and service conditions;

AND WHEREAS having a similar system for residents of Greater Sudbury could provide them with enhanced information, predictability and perhaps reduce the number of calls to 311 during significant winter events;

THEREFORE let it be resolved that City staff prepare a report to be presented to the Finance and Administration Committee before the end of Q3 2023 to summarize the requirements, cost and process to have a “live website” of City Winter Maintenance Operations focused on Service Levels and Service Activity.
