Re: File #
751-6/21-5

To Whom Concerned,

My name is Carrie Monette. I am a current resident @ 222 King St. #5 Sudbury.

Recently a notice was given about adding extra units to my current residence.

I am writing to make it known that I am in complete disagreement with this planned addition.

Already our visitors parking has been sold off to another address. Now they want to take away more parking, which we are extremely limited. Also they want to remove our ONLY storage area to add units. Our units as is provide very little storage.

We as paying tenants should have some say in a situation that will most definitely cause extreme stress and discomfort.

The extra noise of unwanted construction, the discomfort of multiple workers, trucks, materials, the loss of space for our storage, loss of parking.

There are many other business opportunities that do NOT interfere with the peace of current tenants. We should not have to tolerate or sacrifice our quality of life because a business wants more money.

-2-

I do not want any expansion of the building I live in.

I want to be able to live in my home without the extra hassle such a long process.

These additions they propose are loud and extreme.

I am truly hoping this proposal will be terminated.

I am going on record as voting NO.

##

Thank you for your time
and adding our names to a NO vote

Sincerely

tenants of 223 King St
#5 Sudbury

Alex Singbush

I am writing in regards to the application to amend the By-law by changing the zone classification from R2-3 for the apartment building next door to me, allowing him to add 4 more units and not enough parking.

I strongly object to this as he only has 4 parking spots as it is and his tenants park in my parking lot, in front of my house and block the laneway. There are too many people in such close quarters to me that I am so not ok with adding any more.

He just keeps adding apartments but doesn't fix real issues; like pigeons living in hi roof, his stucco falling onto my walkway and the hornets that live in his foundation.

Thank you for asking.

Best regards

Catherine Perrin
