Mandatory Question (1262 response(s))

Question type: Radio Button Question

When it comes to increasing sidewalk service levels, which of the following would you be willing to consider? Check all that apply.

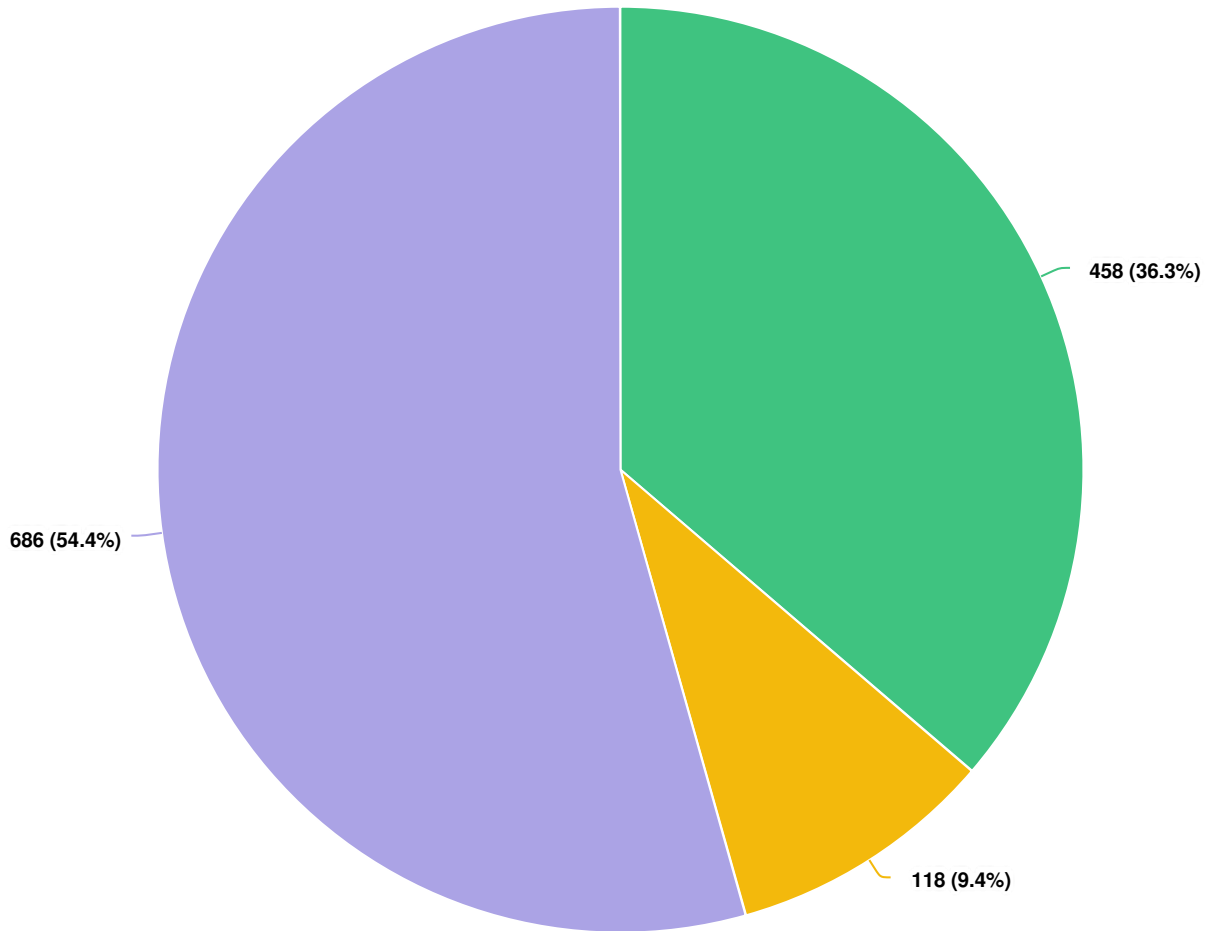

Question options

- Increasing taxes to enhance the current level of service for all sidewalks.
- Decreasing the level of service on some sidewalks in order to increase the level of service on others. (for example, increasing sanding on specific routes for the duration of a storm, which means it would take longer to do one pass on some other routes)
- Clearing snow on arterial and collector road sidewalks sooner and more frequently during a storm, but not plowing sidewalks on local roads until after the storm has ended.
- Residents being responsible for clearing the sidewalks in front of their own property to allow for an increased level of service at other priority locations.
- Businesses being responsible for clearing the snow in front of their own property to allow for an increased level of service at other priority locations.
- None of the above.
