Thank you for providing me with the plan
Mr. Ferguson. In reviewing the proposal I have a major concern.

I have lived on Nova Drive since 2014 and my water pressure is practically non-existent. Now you are proposing an additional 180 single homes. What will be done regarding the water pressure and sewer.

I know there were issues on Hidden Ridge with respect to water pressure which prevented further development.

This is of great concern to me and I would like it addressed. I would expect a pump station and water pressure to be dealt with before any further development is approved. I will not accept any further decrease in my water pressure.

Once again I would like this addressed at the meeting and I would appreciate a response.

Sincerely

Claudio Clarini
