# STAFF REPORT

## Location:

Lots 62 & 63, Plan M-23, Lot 2, Concession 3, Township of Neelon, Coniston

## Background:

Section 50(4) of the Planning Act provides that the council of a local municipality may, by by-law, designate any plan of subdivision that has been registered for 8 years or more not to be a registered plan for the purposes of Section 50(3) of the Planning Act. Plan M-23 was registered in June of 1911. Subsection 50(3) of the Planning Act contains the subdivision control provisions preventing the transfer of land unless the land is within a plan of subdivision along with other restrictions and requirements.

The subject lands are designated 'Living Area I' in the Official Plan and are zoned 'Low Density Residential One (R1-5)' in the Zoning By-law. The lands are known as 32 East Street and contain an existing residential dwelling and accessory building. The current owner advised that the future owner is intending to construct an accessory building with a secondary unit on Lot 62. The future owner would be unable to build on Lot 62 as a separate lot distinct lot on a plan of subdivision, as accessory structures cannot be constructed on a lot without a main use. A request for a deeming by-law is required to enable the project. Municipal sewer and water services are available in this location.

In order to consolidate the land ownership as per the owner's request, it is recommended that a by-law be enacted by Council deeming Lots 62 & 63, Plan M-23 not to be a registered plan for the purposes of Section 50(3) of the Planning Act. The deeming by-law would be forwarded to the Registry Office and would appear on title to the property and would prevent the transfer of the lots individually. The lots could only be transferred together as long as the deeming by-law remains in place.

Staff has received an acknowledgement from the owner that they understand the implications of the deeming by-law and agree with the lots being deemed for the purposes of Section 50(3) of the Planning Act.

Passage of a deeming by-law does not affect the applicable zoning, and the owner is advised to ensure their project complies with the applicable zoning by-law standards (e.g. setbacks, maximum height and lot coverage).
