

To Stephanie Poirier,

I'm officially writing to ask for an extension on my garden suite permit that was taken out earlier this year for the property in Wahnapiatae, at 10 willow st. Lot 8, Con 3 Dryden. The reason we are asking for the extension is as such permits on the property we're not completed the city would not pass the garden suite until the permits were completed. Therefore we had to obtain engineered plans to complete the project which took longer then expected, and weren't able to complete the project before the deadline. We're are looking to obtain a 6 month extension so that the permits can be closed in the spring.

Regards,
Joey Talbot.
