What questions does Phase 1 address?

- How will our population, employment and land use needs grow and change over the next 20 years?
- Do we have enough land set aside to meet our short, medium and long term needs?
- How can we provide a wide range of housing options to the community?
- How can we plan for an aging population?
- How can we continue to protect our watersheds, lakes and rivers?
- How can we support the creation of a local food system?
- How can we build our resilience to our changing climate?
