

# 2016 City of Greater Sudbury Municipal Budget

A submission of

Coalition for a  
**Liveable**  
Sudbury

Making connections. Working toward sustainability.

# 1. Implement an Active Transportation Coordinator and/or Transportation Demand Manager

*For real progress in making travelling on foot, by bike, and on the bus safe & convenient*

## 2. Fund and set timelines for the higher level work needed to become a City where walking, biking and transit are true transportation options.

- Complete Streets Policy & Guidelines
- Sidewalk Priority Index
- Cycling Infrastructure Priority Index
- Transit Master Plan
- Transportation Demand Management Plan

### 3. Budget lines for specific high impact cycling infrastructure projects for the 2016 season.

*SHIFT* →

## 4. Provide Saturday transit service on Sundays

We also recommend:

- increased funding for Handi Transit
- fare options

# SHIFT

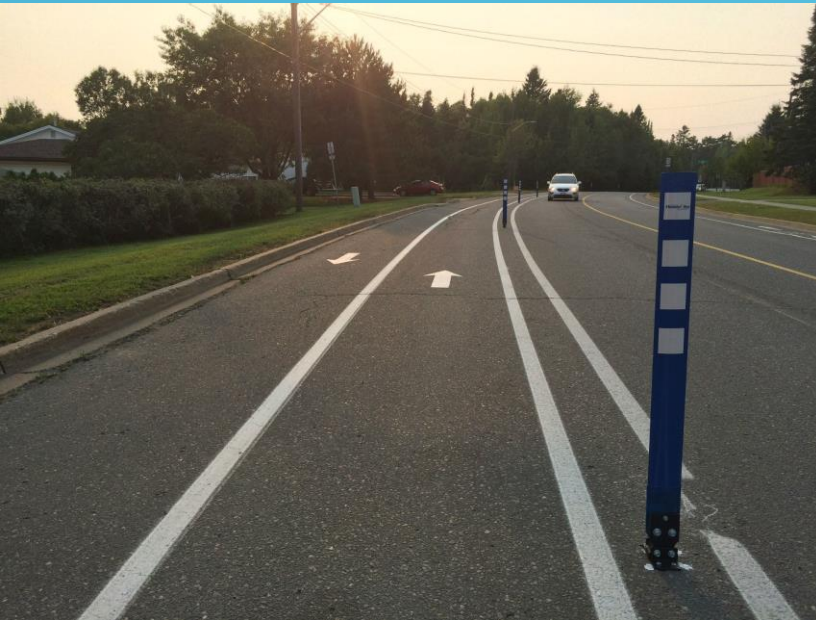

5. Dedicate staff time to watershed studies, and set meaningful deadlines

*SHIFT* →

## 6. Complete flagship projects that lead by example and establish Greater Sudbury as a leader in the north

Thunder Bay's recently opened protected bike lane and multi-use trail

Thunder Bay has recently installed a series of rain gardens in prominent locations that filter and reduce stormwater run-off

When meeting the priorities of our community, the attitude should be **“how can we make it happen.”**

**Let's be creative.**
