

Request for Decision

All-Terrain Vehicle By-law

Presented To: Operations Committee

Presented: Monday, May 06, 2013

Report Date Wednesday, Apr 24, 2013

Type: Presentations

Recommendation

THAT the City of Greater Sudbury amend By-law 2011-150, being a By-law to Permit and Regulate the Operation of All-Terrain Vehicles on Certain Highways for a Temporary Period, by deleting Section 9;

AND THAT By-law 2011-150 be amended so as to permit the operation of all-terrain vehicles on area roads between December 1 and March 31, in addition to being permitted between April 1 and November 30, of any given year on those roads identified in the By-law;

AND THAT the City of Greater Sudbury formally advise the Province of Ontario, by sending a letter to the Minister of Transportation, of its interest to enter into a discussion which would allow municipalities the authority to permit the use of local roads for the type of All-Terrain Vehicles, commonly referred to as “side-by-sides”, and “two-ups”;

AND THAT the use of All-Terrain Vehicles on local roads be monitored by staff and be reported to Council of the City of Greater Sudbury as required;

AND THAT the title of the By-law be amended to delete the reference to Temporary.

Background

On June 29, 2011, City Council passed By-law 2011-150 which authorizes All-Terrain Vehicles (ATV's) on certain City streets which are identified in Schedule A and Schedule B appended hereto.

During the public consultation process which attracted over 800 residents, there was much discussion both for and against the By-law. With this in mind, Council chose to implement the By-law for a two year trial period. The idea was to monitor the situation and report back to Council on the success of the trial period. Specifically, Council wanted to consider the following two issues;

1. What traffic, road, stunt driving (dangerous or reckless driving), issues of trespassing and destruction

- of public and private property were observed over the time period of the trial By-law;
2. What progress would be made toward the development of an ATV association, similar to the snowmobile association, which could assist in the development of a trail network.

Local Association Development

As noted above, Council was interested in seeing the development of a local ATV association that would serve as a collective for the advancement of a local ATV trail network. The idea was that potentially this association would experience the same level of success achieved by the local snowmobile association in developing their trail network some 20 years ago.

The Greater Sudbury ATV association has been active for approximately one year, is incorporated, and consists of approximately 100 members. They have established a website and it can be viewed at <http://www.greatersudburyatv.com/>. The goals of Greater Sudbury ATV are to, “promote safe and responsible ATV use through rider education.” They also intend to develop, maintain and monitor legal trail networks within Greater Sudbury.

In addition to this association, a new group of interested people from the Chelmsford Community Action Network are examining ways to establish an association with a mandate of developing a trail network. Staff have met with this group and they are in touch with the Greater Sudbury ATV association.

From a staff standpoint, we feel these groups are responding to Council’s desire to see a trail association develop within Greater Sudbury.

Complaints/Concerns

The assumption in terms of monitoring the By-law was that ATV riders were looking for ways to legally enjoy the use of ATV’s. With this in mind, staff made use of the City’s website to provide enough information for people to understand where, and under what circumstances, the use of ATV’s are permitted.

A complete set of maps on a City wide and neighborhood level are found on the web identifying which roads ATV’s can be driven on. In addition, a person can type in their address and a map will appear showing the nearest road where ATV use is permitted.

The web also contains a “Frequently Asked Questions” section, as well as links to Greater Sudbury Police Services and other ATV information websites.

The Active Citizen Request (ACR) system was modified to assist City staff in monitoring ATV complaints, comments or concerns through the 311 system. Staff have been monitoring calls since the time the By-law was passed and the following is a summary of the results:

- A total of 26 interactions with the system were entered into the ACR system.
- 16 of these were general questions pertaining to various aspects of the ATV By-law. These include such things as, what roads are they permitted on, what is the speed limit, how old do you have to be to drive an ATV, and how many passengers can legally be on a vehicle.
- A total of 4 complaints were received during the period of the monitoring.
- In addition a total of 6 comments or suggestions were received. Of these 6 comments or suggestions, 4 were positive comments pertaining to the use of ATV’s on area roadways.

Based on the monitoring of this issue to date, we do not feel that there have been a significant amount of

problems associated with the use of ATV's on area roads since the By-law was passed.

It should be noted that staff have received 3 emails from a Capreol resident and 1 from a Copper Cliff resident in opposition to the use of local roads for ATV's in the past few weeks.

“Side-By-Sides”

At its meeting of April 9, 2013, Council directed staff to looking into issues regarding the authorization of “side-by-sides” on area roadways as part of the review of the ATV by-law.

A side-by-side off-road vehicle has driver and passenger seating beside each other, similar to a car. It is usually built with a hood, a steering wheel and foot pedals, instead of a motorcycle-type handle bar and thumb throttle.

A side-by-side off-road vehicle must be registered and display a rear license plate, except in exempt areas such as far northern Ontario. It must be insured under a motor vehicle liability policy.

A side-by-side off-road vehicle is prohibited from use on provincial highways and municipal roads.

A side-by-side off-road vehicle can travel directly across a highway (where permitted), if the driver is at least 16 years of age and holds a valid driver's license.

In By-law 2011-150 an “all-terrain vehicle” means

"an off-road vehicle that:

- (a) has four wheels, the tires of all of which are in contact with the ground;
- (b) has steering handlebars;
- (c) has a seat that is designed to be straddled by the driver; and
- (d) is designed to carry a driver only and no passengers;

Given this definition, ‘sides-by-sides’ are prohibited under the terms of the By-law. Council's authority to allow ATV's on area roadways relies on the authority of the Province under the provisions of the Highway Traffic Act. The Province has not provided municipalities in Ontario the ability to allow two passenger ATV's on local roadways. It should be noted that “two-up's”, as they are commonly known, are a type of off-road vehicle that have four wheels, steering handlebars, a driver's seat and a passenger seat directly behind the driver. This type of ATV is also not permitted on area roadways. An ATV designed with a driver and passenger seat is prohibited even if the driver is not carrying a passenger.

It is important to note that “side-by-sides” can legally be driven on Crown lands and private land with an owner's permission. They also can directly cross a municipal or provincial road when travelling on an approved trail system, or crown lands or private land with the owner's permission.

Throughout the public consultations specific to the ATV By-law, staff gathered the opinion that the number one question from the community was, “Why are side-by-sides not permitted on local roads?” This question has come up continually through phone calls, email and the ACR system. People seem to enjoy these types of off-road vehicles, and are frustrated they cannot be used on area roadways.

Staff have contacted the Ministry of Transportation to better understand this issue. From this conversation

we understand that the Ministry is very much aware of the public interest in these types of off-road vehicles, however at this time, there are no proposed changes to the legislation to permit them on municipal roads in Ontario. Ministry staff have advised that there are many aspects to this issue both for, and against, permitting them. It is interesting to note that there have been lobbying efforts against legalizing them from an injury prevention perspective. In addition, there has also been lobbying against permitting them from the association that represents manufacturers of “side-by-sides”.

In summary, at this time we understand that the province is very much aware of the public interest in allowing “side-by-side”, and “two-up” off-road vehicles. We can further advise that there is no current action by the Province that would allow them road access in the near term.

Lastly, we understand that there needs to be further review of issues of safety and manufacturing standards, among other matters. These reviews must occur before the province will consider changes in this area.

Council could choose to formally advise the Province of their interest in allowing the use of local roads for both “side-by-sides”, and “two-ups”.

Road Issues

We have spoken with staff from Infrastructure Services regarding the impact on the road network as a result of off-road vehicle use over the past 2 years. Staff acknowledged that there is a definite increase in maintenance to the shoulders of the road as a result of off road vehicle use. They also indicated that there is a “chewing up” of the edge of pavement in certain locations, as a result of off-road vehicles. Staff were not able to quantify the impact to the roads budget, but did agree there was an increase in maintenance.

Tourism

The following is a comment received from Tourism staff regarding ATV's:

“This By-law presents potential for the development of ATV-related tourism experiences in Greater Sudbury, with opportunities for private sector development in the area of ATV rentals or guided ATV trail experiences for those arriving with their own vehicles. The ATV sector is of particular interest as it may provide solutions to challenges facing the snowmobile sector (shorter winters and trail conditions, for example).

Tourism staff have been in regular contact with the Sudbury Trail Plan, an official partner of the Sudbury Tourism Partnership, along with private sector businesses and related not-for-profit organizations who seek support and resources for the development of comparable snowmobile opportunities; similar support and resources may be available for private sector businesses seeking to expand these opportunities for the ATV sector.

It is the understanding of Tourism staff that there are nascent groups now exploring ATV opportunities, but to date, none have made contact with the CGS Tourism department.”

Police/By-law

The following is a comment received from Greater Sudbury Police Services regarding ATV's:

"The By-law has worked well from an enforcement perspective in that most ATV riders encountered are stopping for police whereas, in the past, an ATV rider would view a cruiser and immediately look for the

quickest route out of the way prior to a stop being initiated. We are able to approach these riders and have positive interactions which ultimately leads to safer riding.

It is our experience that this type of legislation works well with most law abiding citizens. The extreme problem drivers will do what they like when they like whether a By-law is in place or not. We have received less ATV complaints in general now that riders do have authority to ride on the road during specified times.

Furthermore, the complaints we do get do not apply to the By-law and are not complaints about operators driving on the highway; rather ATV riders with no helmets, no plates, drinking and riding etc.

In 2012 the Greater Sudbury Police Service responded to three Motor Vehicle Collision fatalities involving off road vehicle. None of these fatalities occurred on highways within the City of Greater Sudbury. We too, field many calls and questions as to why "side-by-side" vehicles are not included in the By-law."

Additional Issues – Winter use

During public consultation the issue of amending the By-law to permit ATV use on area roads all year long was raised. As Council knows, the current By-law permits them on area roads from April 1 to November 30 of any given year.

The debate centered on such practical matters as those who plow driveways in neighborhoods being able to drive on roads to do so, to using them for winter recreation such as ice fishing, or access to camp.

One issue that arose was that of safety in winter months. There is less daylight during the winter which may impact safety. In addition, it was noted that roads can become narrower due to snow storage which would require ATV's to travel more in the middle of the road. Lastly it was noted that with higher snow banks it may make it more difficult to spot an ATV at intersection or when exiting driveways.

Winter road use was not monitored these past 2 years as it was not permitted, so there is no local experience with respect to the concerns raised.

Staff are recommending that should winter road use be permitted, it be monitored and Council be provided with an annual assessment of this aspect of the By-law.

It is proposed that winter road use be permitted on the roads shown on Schedule C and Schedule D appended hereto. These roads are slightly different than the roads where they are permitted in the summer. Primarily these roads are local roads with some exceptions as noted on Schedule A and Schedule B.

Staff will continue to monitor the impact of off-road vehicles on area roads and provide Council an annual assessment of these impacts, or issues that may arise.

It should be noted that as new plans of subdivisions are registered they will have to be reviewed to consider whether or not these new roads should be added to the ATV By-law. Staff proposes to do this on an annual basis as part of the monitoring process.
