

Request for Decision

Proposed Naming of Laneway in Sudbury

Presented To: Street Naming Committee

Presented: Monday, Apr 12, 2010

Report Date Thursday, Apr 08, 2010

Type: Managers' Reports

Recommendation

That the laneway on Plan M-100, north of Ethel Street, east of Tedman Avenue and west of Melvin Street be named ruelle Melanie Lane and that the necessary By-law be passed.

Background

The City has been requested by Greater Sudbury Utilities Inc. to name a laneway on Plan M-100, owned by the City. Greater Sudbury Utilities Inc. Owns a hydro substation at this location which fronts on the unnamed lane. A lane name must be assigned in order to create a municipal address for this location. The establishment of a municipal address will assist emergency responders in locating the building, in the event of a 9-1-1 call.

As the hydro substation is the only building which fronts on the lane it is the only property which will be affected by the naming of the lane. The other properties face and are numbered on the applicable street. It is proposed to name only the one block of land consistent with the City's Street Naming and Numbering Policy, adopted as By-law 2006-225. The By-law provides in part: "Laneways that do not serve as the only public access for a property should not be named."

The City owns the lane, which is in the locations shown on the attached mapping.

No public notice is required to name this laneway, so it is recommended that the City pass the necessary by-law to name the lane as requested.
