The following resolution was presented:

PL2021-32 Leduc/McCausland: THAT the City of Greater Sudbury approves Consent Agenda Items C-1 to C-3.

**CARRIED**

The following are the Consent Agenda Items:

### **Routine Management Reports**

#### **C-1      Moonglo East Subdivision, Sudbury**

Report dated January 18, 2021 from the General Manager of Growth and Infrastructure regarding Moonglo East Subdivision, Sudbury.

PL2021-33 Leduc/McCausland: THAT the City of Greater Sudbury's delegated official be directed to amend the conditions of draft approval for a plan of subdivision on those lands described as Part of Parcel 1446 SES, Lots 7 & 8, Concession 1, Township of McKim, File # 780-6/89019E, as outlined in the report entitled "Moonglo East Subdivision, Sudbury", from the General Manager of Growth and Infrastructure, presented at the Planning Committee meeting on February 8, 2021, as follows:

1. By deleting Condition #23 and replacing it with the following:

"23. That this draft approval shall lapse on February 6, 2024.";

2. By deleting Condition #28 entirely and replacing it with the following:

"28. A storm-water management report and associated plans must be submitted by the Owner's Consulting Engineer for approval by the City. The report must address the following requirements:

a) The underground storm sewer system within the plan of subdivision must be designed to

accommodate and/or convey the minor storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City's 5 year design storm. The permissible minor storm discharge from the subject development must be limited to the existing pre-development site runoff resulting from a 5 year design storm. Any resulting post-development runoff in excess of this permissible discharge rate must be controlled and detained within the plan of subdivision;

b) The overland flow system within the plan of subdivision must be designed to accommodate and/or convey the major storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City's 100 year design storm or Regional storm event, whichever is greater, without causing damage to proposed and adjacent public and private properties. The permissible major storm discharge from the subject development must be limited to the existing pre-development runoff resulting from a 100 year design storm or Regional storm event, whichever is greater;

c) "Enhanced" level must be used for the design of storm-water quality controls as defined by the Ministry of the Environment, Conservation and Parks;

d) Storm-water management must follow the recommendations of the Junction Creek Sub-watershed Study;

e) The drainage catchment boundary including external tributary catchments and their respective area must be clearly indicated with any storm-water management plan;

f) The final grading of the lands shall be such that the surface water originating on or tributary to the said lands, including roof water from buildings and surface water from paved areas, will be discharged in a manner satisfactory to the General Manager of Growth and Infrastructure;

g) Minor storm drainage from the plan of subdivision shall not be drained overland onto adjacent properties; and,

h) Existing drainage patterns on adjacent properties shall not be altered unless explicit permission is granted; and,

i) The owner shall be responsible for the design and construction of any required storm-water management works to the satisfaction of the General Manager of Growth and Infrastructure as part of the servicing plans for the subdivision and the owner shall dedicate the lands for storm-water management works as a condition of this development."

3. By deleting Condition #38 entirely; and,

4. By deleting Condition #48 entirely and replacing it with the following:

"48. The owner shall provide to the City, as part of the submission of servicing plans an Erosion and Sediment Control Plan detailing the location and types of sediment and erosion control measures to be implemented during the construction of each phase of the project. Said plan shall be to the satisfaction of the General Manager of Growth and Infrastructure and the Nickel District Conservation Authority. The siltation control shall remain in place until all disturbed areas have been stabilized. All sediment and erosion control measures shall be inspected daily to ensure that they are functioning properly and are maintained and/or updated as required. If the sediment and erosion control measures are not functioning properly, no further work shall occur until the sediment and/or erosion problem is addressed."
