Report dated May 8, 2020 from the General Manager of Growth and Infrastructure regarding Dalron Construction Ltd. - Application to extend a draft approved plan of subdivision approval, PIN 73377-1463, Part of Parcel 22159 A SWS, Lot 8, Concession 5, Township of Waters (Sugarbush Subdivision, Lively).

PL2020-68 Cormier/Landry-Altmann: THAT the City of Greater Sudbury's delegated official be directed to amend the conditions of draft approval for a plan of subdivision on those lands described as PIN 73377-1463, Part of Parcel 22159 A SWS, Lot 8, Concession 5, Township of Waters, File #780-8/08011, as outlined in the report entitled "Dalron Construction Ltd.", from the General Manager of Growth and Infrastructure, presented at the Planning Committee meeting on June 22, 2020, upon payment of Council's processing fee in the amount of \$2,273.00 as follows:

1. By adding the following words "The owner shall be responsible for the legal costs of preparing and registering any required lot grading agreement." at the end of Condition #5;

2. By deleting Conditions #6, #7, #8 and #30 entirely;

3. By deleting Condition #29 and replacing it with the following:

“29. That this draft approval shall lapse on May 8, 2023.”; and,

4. By adding a new Condition #39 as follows:

“39. A storm-water management report and associated plans must be submitted by the Owner’s Consulting Engineer for approval by the City. The report must address the following requirements:

a) The underground storm sewer system within the plan of subdivision must be designed to accommodate and/or convey the minor storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City’s two year design storm. The permissible minor storm discharge from the subject development must be limited to the existing pre-development site runoff resulting from a two year design storm. Any resulting post development runoff in excess of this permissible discharge rate must be controlled and detained within the plan of subdivision;

b) The overland flow system within the plan of subdivision must be designed to accommodate and/or convey the major storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City’s 100 year design storm or Regional storm event, whichever is greater, without causing damage to proposed and adjacent public and private properties. The permissible major storm discharge from the subject development must be limited to the existing pre-development runoff resulting from a 100 year design storm or Regional storm event, whichever is greater;

c) “Enhanced” level must be used for the design of storm-water quality controls as defined by the Ministry of the Environment, Conservation and Parks;

d) Storm-water management must follow the recommendations of the Junction Creek Sub-watershed Study;

e) The drainage catchment boundary including external tributary catchments and their respective area must be clearly indicated with any storm-water management plan;

f) The final grading of the lands shall be such that the surface water originating on or tributary to the said lands, including roof water from buildings and surface water from paved areas, will be discharged in a manner satisfactory to the General Manager of Growth and Infrastructure;

g) Minor storm drainage from the plan of subdivision shall not be drained overland onto adjacent properties;

h) Existing drainage patterns on adjacent properties shall not be altered unless explicit permission is granted; and,

i) The owner shall be responsible for the design and construction of any required storm-water management works to the satisfaction of the General Manager of Growth and Infrastructure as part of the servicing plans for the subdivision and the owner shall dedicate the lands for storm-water management works as a condition of this development.”

Dalron Construction Ltd. - Application to extend a draft approved plan of subdivision approval, Parcel 49532 SES, Lots 163-165, Plan M-423, Lot 2, Concession 2, Township of McKim (Twin Lakes Subdivision, Sudbury)

Report dated May 8, 2020 from the General Manager of Growth and Infrastructure regarding Dalron Construction Ltd. - Application to extend a draft approved plan of subdivision approval, Parcel 49532 SES, Lots 163-165, Plan M-423, Lot 2, Concession 2, Township of McKim (Twin Lakes Subdivision, Sudbury).

PL2020-70 Cormier/Landry-Altmann: THAT the City of Greater Sudbury’s delegated official be directed to amend the conditions of draft approval for a plan of subdivision on those lands described as Parcel 49532 SES, Lots 163-165, Plan M-423, Lot 2, Concession 2, Township of McKim, File #780-6/03001, as outlined in the report entitled “Dalron Construction Ltd.”, from the General Manager of Growth and Infrastructure, presented at the Planning Committee meeting on June 22, 2020, upon payment of the processing fee in the amount of \$910.58 as follows:

1.By deleting “50.(1)” in Condition #8 and replacing it with “50.1(1)”;

2.By deleting Condition #10 and replacing it with the following:

“10. Prior to the submission of servicing plans, the owner shall, to the satisfaction of the Director of Planning Services, provide an updated geotechnical report prepared, signed, sealed, and dated by a geotechnical engineer licensed in the Province of Ontario. Said report shall, as a minimum, provide factual information on the soils and groundwater conditions within the proposed development. The report should also include design information and recommend construction procedures for storm and sanitary sewers, storm-water management facilities, water-mains, roads to a 20 year design life, the mass filling of land, surface drainage works, erosion control, slope stability, slope treatment and building foundations. In addition, included in this report must be details regarding remove of substandard soils, if any, and placement of engineered fill, if required, for the construction of new residential dwellings. The geotechnical information on building foundations shall be to the satisfaction of the Chief Building Official and Director of Planning Services. A soils caution agreement, if required, shall also be registered on title, to the satisfaction of the Chief Building Official and the City Solicitor.”;

3. By deleting Condition #11 and replacing it with the following:

“11. The owner shall provide, to the satisfaction of the General Manager of Growth and Infrastructure, the Director of Planning Services and the Nickel District Conservation

Authority, a detailed Lot Grading and Drainage Plan prepared, signed, sealed, and dated by a professional civil engineer with a valid Certificate of Authorization from the Association of Professional Engineers of Ontario, for the proposed lots as part of the submission of servicing plans. This plan must show finished grades around new houses, retaining walls, side yards, swales, slopes and lot corners. The plan must show sufficient grades on boundary properties to mesh the lot grading of the new site to existing properties. A lot grading agreement shall be registered on title, if required, to the satisfaction of Director of Planning Services and City Solicitor. The owner shall be responsible for the legal costs of preparing and registering the associated lot grading agreement.”;

4. By deleting Condition #12 and replacing it with the following:

“12. As part of the submission of servicing plans, the owner/applicant shall have rear yard slope treatments designed by a geotechnical engineer with a valid Certificate of Authorization from the Association of Professional Engineers of Ontario, incorporated into the plans at locations required by the General Manager of Growth and Infrastructure. Suitable provisions shall be incorporated in the Subdivision Agreement to ensure that the treatment is undertaken to the satisfaction of the General Manager of Growth and Infrastructure.”;

5. By deleting Conditions #13, #14, #39 and #40 and #41;

6. By deleting Condition #20 entirely and replacing it with the following:

“20. That this draft approval shall lapse on March 24, 2021.”;

7. By deleting Condition #26 and replacing it with the following:

“26. The owner/applicant shall provide Utilities Servicing Plans, designed by a consulting engineer with a valid Certificate of Authorization from the Association of Professional Engineers of Ontario, for the proposed lots, to the satisfaction of the Director of Planning Services. The utilities servicing plan, at a minimum, shall show the location of all utilities including City services, Greater Sudbury Hydro Plus or Hydro One, Bell, Union Gas, Eastlink and Canada Post. This plan must be provided prior to construction of any individual phase. The owner/applicant shall be responsible for all costs associated with the installation of said services.”

8. By deleting Condition #27 and replacing it with the following:

“27. The owner is to provide proof of sufficient fire flow in conjunction with the submission of construction drawings for each phase of construction to the satisfaction of the General Manager of Growth and Infrastructure Services. All costs associated with upgrading the existing distribution system to service this subdivision will be borne totally by the owner”;

9. By deleting Condition #28 and replacing it with the following:

“28. The owner/applicant is to provide proof of sufficient sanitary sewer capacity in conjunction with the submission of construction drawings for each phase of construction to the satisfaction of the General Manager of Growth and Infrastructure Services. All costs associated with upgrading the existing collection system and/or sewage lift stations to service this subdivision will be borne totally by the owner/applicant.”;

10. By deleting Condition #29 and replacing it with the following:

“29. The owner shall provide to the City, as part of the submission of servicing plans a Siltation Control Plan. The Siltation Control Plan must show the location and types of sediment and

erosion control measures to be implemented. The siltation controls shall remain in place until all disturbed areas have been stabilized. All sediment and erosion control measures shall be inspected daily to ensure that they are functioning properly and are maintained or updated as required. If the sediment and erosion control measures are not functioning properly, no further work shall occur until the sediment and/or erosion problem is addressed. The siltation control shall remain in place until all disturbed areas have been stabilized. All sediment and erosion control measures shall be inspected daily to ensure that they are functioning properly and are maintained and/or updated as required. If the sediment and erosion control measures are not functioning properly, no further work shall occur until the sediment and/or erosion problem is addressed. Said plan shall be to the satisfaction of the General Manager of Growth and Infrastructure and the Nickel District Conservation Authority.”

11. By adding a new Condition #44 as follows:

“44. That in accordance with Section 59(4) of the Development Charges Act, a notice of agreement shall be registered on title to ensure that persons who first purchase the subdivided land after registration of the plan of subdivision are informed, at the time the land is transferred, of all development charges related to development.”;

12. By adding a new Condition #45 as follows:

“45. A storm-water management report and associated plans must be submitted by the owner’s consulting engineer for approval by the City to the satisfaction of the General Manager of Growth and Infrastructure. The report must address the following requirements:

a) The underground storm sewer system within the plan of subdivision must be designed to accommodate and/or convey the minor storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City’s two year design storm. The permissible minor storm discharge from the subject development must be limited to 20% below the existing pre-development site runoff resulting from a two year design storm. Any resulting post development runoff in excess of this permissible discharge rate must be controlled and detained within the plan of subdivision;

b) The overland flow system within the plan of subdivision must be designed to accommodate and/or convey the major storm flow, that is, the rainfall runoff resulting from the subject site and any external tributary areas using the City’s 100 year design storm or Regional storm event, whichever is greater, without causing damage to proposed and adjacent public and private properties. The permissible major storm discharge from the subject development must be limited to 20% below the existing pre-development runoff resulting from a 100 year design storm or Regional storm event, whichever is greater;

c) “Enhanced” level must be used for the design of storm-water quality controls as defined by the Ministry of the Environment, Conservation and Parks;

d) Storm-water management must follow the recommendations of the Ramsey Lake Sub-watershed Study;

e) The drainage catchment boundary including external tributary catchments and their respective area must be clearly indicated with any storm-water management plan;

f) The final grading of the lands shall be such that the surface water originating on or tributary to the said lands, including roof water from buildings and surface water from paved areas, will be discharged in a manner satisfactory to the General Manager of Growth and Infrastructure;
