Communications and Citizen Services

Financial Implications

Steve Facey
Manager of Financial Planning & Budgeting

Recommended by the C.A.O.

Ed Archer
Chief Administrative Officer

A: INTRODUCTION

Over the past five months, the City of Greater Sudbury has responded to the COVID-19 Pandemic in a variety of ways, always seeking a balance between maintaining essential services, meeting the needs of vulnerable populations, acting with financial responsibility and ensuring the safety of the public and municipal employees.

On July 17, Greater Sudbury entered Stage 3 of the three-stage Restart Phase outlined in its reopening framework and the Premier has indicated that we will remain at this stage, and not return to a situation of "new normal," for the foreseeable future. As shown in the updated list of all 58 municipal services, attached to this report as Appendix A, many services have been restored already or will be restored soon. Redeployed staff continue to provide vital support to vulnerable populations and this will have an impact on timing of service restoration.

Decisions on some service restorations and associated service level changes will be recommended to Council in separate reports. Details on the financial implications of the corporation's COVID-19 response are contained in reports to the Finance and Administration Committee.

B: NEXT STEPS

Staff will continue to provide regular reports on the status and outlook for all municipal services.

This will include the financial and non-financial resource requirements associated with meeting anticipated provincial guidance for a safe operating environment.
