The screenshot shows the City of Greater Sudbury website. The header includes the city logo and navigation links: Home, Live, Play, Do Business, City Hall, Online Services, and Over to You. The breadcrumb trail reads: Home > Live > Transportation, Parking and Roads > Road Construction and Projects > 2020 Construction Projects.

## 2020 Construction Projects

The Province of Ontario has determined that contracts relating to the maintenance and repair, as well as the safe and reliable operation and expansion of infrastructure, are essential.

Roads, bridges, dams, water and wastewater services, environmental services, and municipal services and operations are all examples of projects the province has deemed essential.

As such, work on the approved capital program is ongoing and the City of Greater Sudbury is committed to the planned infrastructure improvements in your area.

We can assure you that our contractors have the obligation to follow all provincial regulations relating to health and safety, as well as all directives coming from the Chief Medical Officer of Health regarding COVID-19.

We recognize that the situation is evolving rapidly and we will continue to provide updates as appropriate. Please visit our website for the most current information.

If you have any questions or concerns relating to this project please contact the Project Manager listed for your street.

Thank you for your continued cooperation and support during this challenging time.
