Statement taken by: P. [Signature] Officer No. 1315

I was in my basement washroom when I suddenly heard screaming coming from [Redacted]. We are in the process of getting our roof re-shingled so I thought material from the roof had fallen on [Redacted]. I ran upstairs and outside our side door and when I opened it, [Redacted] was the first person that I saw. I noticed his two fingers were bleeding, then noticed [Redacted] shaking the [Redacted] in the corner by the door with [Redacted]. I asked what had happened and noticed that [Redacted] was sitting on our deck stairs and [Redacted] was very upset. I then found out the whole situation. I promptly brought [Redacted] in the house and noticed that he was bleeding and he was still shaking. A few minutes earlier before all of this happened [Redacted] had just arrived, [Redacted] was outside laying in the grass by the side door. I went inside to use the washroom and to cook breakfast. After the incident, I was the one who called you guys to file the report, while [Redacted] was on the phone with the vet. [Redacted] recieved several staples to suture @ large puncture wounds.
